Civil Works.

Read—the following papers:—

G.O., Mis. No. 4533, Revenue, dated 19th November 1898.

Read—the following reference from the Board of Revenue (Land Revenue), No. 1172, dated 18th October 1898:—

Reference.—The plans and estimates received from the Collector of South Arcot for the marginally-noted additions to be made to the new Taluk cutcherry at Chidambaram, will be submitted to Government with reference to its endorsement No. 2073, dated 11th November 1897.

2. In his letter, dated 9th December 1897, No. 2504/Ver., the Collector, while forwarding the plans and estimates, explained that the delay in their submission was chiefly due to the correspondence that had passed between himself and the Head Assistant Collector as to the site for the ryots' shed. The Head Assistant Collector objected to the site selected by the Tahsildar and the Executive Engineer on the ground that it was too close to a well used for drinking purposes and largely resorted to by women. He therefore suggested that the portion of the ground marked X H Y J in blue pencil in the sketch forwarded by the Superintending Engineer might be acquired for the purpose, and estimated the cost of acquisition at Rs. 1,276. In answer to a further reference in the matter, the Collector has reported to the Board that the acquisition of so costly a site for the shed is not absolutely necessary although it would a great improvement to the Taluk cutcherry. Mr. Wynch accordingly proposes that the ryots' shed should be erected on the site marked M N O P in black lead pencil in the Superintending Engineer's sketch. He also states that there is no objection to the substitution of a movable tatti latrine for the roofed building provided in the estimate, and that, if necessary, a mud wall with tiled coping may be substituted for the masonry structure originally proposed. The Board approves of these suggested alterations, but considers that a masonry wall, the cost of which is estimated at only Rs. 1,170, will be much more in keeping with the building than an unsightly mud wall. With these remarks the estimates will be submitted to Government with the request that orders may be issued in the Public Works Department for their revision and the execution of the work at an early date.

Order—Mis. No. 4533, Revenue, dated 19th November 1898.

The proposed construction of a ryots' shed, latrine and compound wall for the Taluk office at Chidambaram is approved: the suggestion to substitute a tatti latrine for the roofed one and a mud wall with tiled coping for the masonry wall provided in the estimates does not commend itself to the Government.

2. The estimates will be forwarded to the Public Works Department for scrutiny and sanction.

(True Extract.)

(Signed) G. S. FORBES,
Secretary to Government.

Note by the Chief Engineer, Public Works Department.

The estimate of Rs. 3,050 for constructing a ryots' shed, latrine and compound wall for the Taluk office at Chidambaram, in the South Arcot district, is recommended for sanction with the following remarks:—

- (1) The nature of soil and sub-soil should have been stated.
- (2) The Superintending Engineer should see whether foundations so deep as 5 feet are really necessary.

(Signed) W. B. DEWINTON,
Chief Engineer.

11th January 1899.

ORDER—No. 160 W., dated 18th January 1899.

The estimate, amounting to Rs. 3,050, for constructing a ryots' shed, latrine and compound wall for the Taluk office at Chidambaram, in the South Arcot district, is sanctioned for execution when funds are available.

2. Attention is drawn to the Chief Engineer's remarks in his note read above.
3. This sanction has been registered as Provincial No. 105 W. of 1898-99, and classified as Civil Buildings—Original Works.

(True Extract.)
