Proceedings of the Board of Revenue

(Separate Revenue),

Dated 29th January 1899.

Mis. No. 363.

Read Board's reference No.1012, dated 16th November 1898, to the Collector of South Canara.

2. This charge has been incurred for many years past with the previous sanction of the Collector and has been passed without objection hitherto. But as it is a recurring charge,

the Accountant-General now objects to it for want of Government sanction.

3. The Collector states that it is not possible to say when the patrol at Mangalore originated. There is a Government boat at this port, but it is used only when a trip has to be made outside the bar, and not for patrolling in the back-water as it is too large to be rowed by one man. A boatman and a peon are deputed for patrolling, and are constantly afloat in the back-water to prevent smuggling. They board foreign vessels as well as those laden with salt and search for unmanifested cargo intended to be smuggled. It is stated that by this means several cases of smuggling have been brought to light.

4. The patrol at Mulki appears to date as far back as 1883. The river being shallow near the Custom-house, vessels usually lie at anchor at a distance; and ample facilities are afforded for smuggling by the existence of dwellings and cocoanut plantations on the opposite side of the river which is also within port limits. The boat is further required for going to the Post office etc as there is an unfordable stream between that place and the Customs office.
