Extract from the South Arcot District Board's address to H.E. the Governor during his eleventh tour:-

9. We next crave your Excellency's attention to an important want which affects the ryot population. Your Excellency may be aware that the regulation of water supply in the main distributaries from imperial tanks and river channels, such as Vadavar &c. is now vested solely in the hands of the D.P.W. --

5 Your Excellency is also aware that the Revenue authorities are more in touch with the ryots and more easily accessible to them than the officers of the D.P.W. and as the chief function of the Revenue Department is to protect the State revenue, any grievance of the ryots regarding water supply is likely to be sooner attended to by that department than by the D.P.W.; and we therefore pray that your Excellency may be pleased to adopt such measures as your Excellency may deem best to help the ryots in this direction.

His Excellency's reply:---

The next most important point upon which you make a representation is the subject of the regulation of water-supply in the main distributaries from imperial tanks and river channels such as the Vadavar &c. which is now vested solely in the hands of the D.P.W. This subject has more than one occasion been brought to my notice when I had the pleasure of meeting deputations from other District Boards, and I must admit that there is a good deal to be said on both sides, and I think I am right in saying, but I will not be absolutely sure of the point, I think I am right in saying that the matter is at present under the consideration of the Revenue Board.
