ABSTRACT.—Passing orders on the proposal of the Collector of Coimbatore to re-notify under section 4 the Yedarhalli block in the Kollegal taluk.

READ—also the following letter from C. H. MOUNSEY, Esq., Acting Collector of Coimbatore, to the Secretary to the Commissioners of Land Revenue (through the Conservator of Forests, Southern Circle), dated 25th September 1899, Ref. on C. No. 111-Sub. :—

With reference to Board's Proceedings, Forest Mis. No. 1566, dated 2nd December 1896, and Board's Proceedings, Mis. No. 1271, dated 10th December 1897, I have the honour to forward herewith a revised draft notification, under section 4 of the Madras Forest Act, for the Yedarhalli block of Kollegal taluk, Coimbatore district (North).

2. As required in paragraph 2 of Board's Proceedings, Forest Mis. No. 1271, dated 10th December 1897, all the enclosures have been demarcated and the block inspected by the Forest Settlement-officer Mr. Gompertz and the District Forest officer, and have been accurately shown on the map which is a skeleton map of the topographical map prepared by the Survey of India Party.

The notifications have been checked by Mr. Gompertz as well as by the District Forest-officer to make certain of their accuracy.

3. In order to minimize the future work of settlement, ten temples are shown as excluded from the reserve and the roads, paths over which rights of way will be subsequently allowed, have been coloured red in the map.

4. The revised boundaries of Hanur and Madeswaramalai blocks can be published as soon as the Yedarhalli block becomes a reserved forest.

RESOLUTION—Forest No. 453, dated 24th October 1899.

The papers read above relate to the re-notification of the Yedarhalli block in the Kollegal taluk, Coimbatore district. It was originally notified under section 4 of the Forest Act in Government Order, No. 1007, Revenue, dated 11th ~~February~~ December 1890, and the final report was submitted to the Board in August 1893. The Board noticed certain discrepancies in the settlement records and, with the first of the proceedings read above, returned the papers to the Collector for revision. When the revision was being carried out, it was found that the settled area embraced more land than was covered by the initial notification, while excluding a piece of valuable forest tract which it was originally intended to reserve. With a view to take up the additional lands and to obviate the difficulty felt in identifying the initial boundary, both the Forest Settlement-officer and the District Forest-officer recommended a re-notification of the block. The Board, however, on ascertaining that the only important discrepancies between the notified and demarcated boundaries in the case of the Yedarhalli reserve related to that portion of its boundary which was common to the adjoining Madeswaramalai * block, directed that the Yedarhalli block should be notified under section 16 at once in accordance with the boundary originally notified under section 4, the portions not previously notified but which it was desired to reserve being left over for inclusion in the revised notification which it was then proposed to issue in respect of the latter.

* Originally named Ponnachi.

2. In his letter No. 1074, dated 10th November 1897, Mr. Gompertz, who had to revise the papers with reference to the Board's instructions, pointed out, after personal inspection of the locality, that not only was the outer boundary of the reserve defective but also several rights and privileges of hillmen had not been properly recorded and defined during settlement. He accordingly urged that a re-notification was absolutely necessary. In order to enable the District Forest-officer to prepare an accurate notification and thus minimize the future work of settlement, he proposed to inspect the block in company with that officer, inquire into rights not already

brought to notice, and demarcate all the enclosures, grouping as many rights as convenient and allowing a sufficient margin of land for extension of cultivation. The Collector and the Conservator supported his proposals. The Board accepted the recommendation of these officers and accordingly directed the Collector to submit the necessary notification.

3. The draft notification now received will be forwarded to Government for approval and publication in the *Fort St. George Gazette*.

4. The officer responsible for the perfunctory work brought to notice in connection with the settlement of the block is the late M.R.Ry. C. Raju Sastri.

Resolution—Forest No. 453, dated 24th October 1899.

The papers read above relate to the re-notification of the Yedarhalli block in the Kollegal taluk, Coimbatore district. It was originally notified under section 4 of the Forest Act in Government Order, No. 1007, Revenue, dated 11th December 1890, and the final report was submitted to the Board in August 1893. The Board noticed certain discrepancies in the settlement records and, with the first of the proceedings read above, returned the papers to the Collector for revision. When the revision was being carried out, it was found that the settled area embraced more land than was covered by the initial notification, while excluding a piece of valuable forest tract which it was originally intended to reserve. With a view to take up the additional lands and to obviate the difficulty felt in identifying the initial boundary, both the Forest Settlement-officer and the District Forest-officer recommended a re-notification of the block. The Board, however, on ascertaining that the only important discrepancies between the notified and demarcated boundaries in the case of the Yedarhalli reserve related to that portion of its boundary which was common to the adjoining Madeswaramalai * block, directed that the Yedarhalli block should be notified under section 16 at once in accordance with the boundary originally notified under section 4, the portions not previously notified but which it was desired to reserve being left over for inclusion in the revised notification which it was then proposed to issue in respect of the latter.

* Originally named Ponnachi.

2. In his letter No. 1674, dated 10th November 1897, Mr. Gompertz, who had to revise the papers with reference to the Board's instructions, pointed out, after personal inspection of the locality, that not only was the outer boundary of the reserve defective but also several rights and privileges of hillmen had not been properly recorded and defined during settlement. He accordingly urged that a re-notification was absolutely necessary. In order to enable the District Forest-officer to prepare an accurate notification and thus minimize the future work of settlement, he proposed to inspect the block in company with that officer, inquire into rights not already

brought to notice, and demarcate all the enclosures, grouping as many rights as convenient and allowing a sufficient margin of land for extension of cultivation. The Collector and the Conservator supported his proposals. The Board accepted the recommendation of these officers and accordingly directed the Collector to submit the necessary notification.

3. The draft notification now received will be forwarded to Government for approval and publication in the *Fort St. George Gazette*.

4. The officer responsible for the perfunctory work brought to notice in connection with the settlement of the block is the late M.R.Ry. C. Raju Sastri.
