Order no 624 27th May 1858

Fort Saint George, Revenue Consultation of 11th May 1858.

No. 79. Read the following Extract from the Minutes of Consultation in the Military Department under date the 12th April 1858, No. 1250.

Read letter from the Adjutant General of the Army, 6th April 1858, No. 180; to the Secretary to Government, Military Department.

SIR,

I have the honor, by order of the Commander-in-Chief, to forward for submission to the Right Honorable the Governor in Council, copy of letter from the Brigadier Commanding Malabar and Canara, dated 1st Instant, No. 111, forwarding copies of correspondence to the Civil Authorities connected with the disturbance in North Canara with his several orders thereon.

Lieutenant General Sir P. Grant entirely approves of the Brigadier's Proceedings—they are most sensible and applicable.

His Excellency has already in his Report on his recent tour expressed his opinion that a Detail of European Artillery should be allotted to the Guns at Malliappooram.

An Artillery Officer has been sent to Malabar and Canara; and the Brigadier Commanding has been requested to instruct him to settle as soon as possible the men's accounts &c., to which allusion is made in the Report forwarded.

His Excellency begs that six 5½ inch Mortars may be sent as soon as possible to the Cannanore Arsenal fully equipped for instant service.

From the Brigadier Commanding Malabar and Canara, Cannanore, 1st April 1858, No. 111; to the Adjutant General of the Army, Ootacamund.

SIR,

With reference to your Telegram of yesterday, I have the honor to report, that I am prepared to start immediately, the "Thebes" comes in, which may be expected to-morrow or next day.

2. I shall enclose in this, when prepared, a Memo. of Posts occupied by Detachments. List shewing the disposition of the Field Force on the Frontier up to the latest information I have received, but which is very imperfect.

3. I shall also forward by this day's post when written out, copies of all communications to the Civil Authorities connected with this disturbance up to this date, and subsequent to that you are already in possession of.

4. Previous to the receipt of your Telegram above mentioned, I have ordered Major Ireland to proceed to Command of the Detachment from this and Mangalore, this I have now countermanded.

5. I am taking from this Arsenal 2 5½ inch Mortars with a detail from the Golundauze Company here to work them, and Lieutenant Budd will join at Mangalore as if possible the presence of an European Officer is necessary. These Pieces are adapted to be carried by Coolies, and the Ammunition either on Coolies or Bullocks—Such a good opportunity for their transport may not again occur, and at Sedashur they will be on the spot if wanted. By the advice of Major Denton, who is an experienced Officer in such matters, I proposed the above to the small Mountain Mortars with the Malabar Police Corps, which he describes as a very uncertain and inefficient piece of Ordnance, and the Mountain Howitzers on Wheels as quite unsuited to a Jungle like that we have to operate in, besides, not knowing the exact time of arrival of the "Thebes" I wished to avoid delay as these Guns are at Malliappooram.

6. I beg here to mention that consequent on the conflicting nature of the Telegrams regarding the Police Corps, copies of which accompany this, I did not eventually call for any assistance from that quarter, and the Telegram stating, that Mr. Robinson had been applied to as regards their services being available, confirmed me in my decision. I am not myself aware of the composition of this Corps, but Mr. Robinson will be the best judge as to the propriety of detaching any portion of the Corps from that part of the Country.

7. While on this subject I would take this opportunity of mentioning for His Excellency the Commander-in-Chief's consideration, that last year it was deemed prudent to hand over the Guns of the Police Corps to the European Detachment at Malliappooram, but if they are to be kept up it will be desirable that a separate Company of European or East Indians should be organized under the Magistrate, as in the event of these Guns being required, the 66th will be required to handle their Rifles instead of acting Gunners.

8. I would again, as mentioned in my Telegram of this date, venture to press upon His Excellency the necessity of a permanent Artillery Officer being sent to this to re-organize the portion of the Golundauze Company at present here, when landed here, and the B. Company was embarked for the Straits, various transfers and changes were made I understand by orders from Ar.

CANNANORE, 1st April 1858. (Signed) J. FITZGERALD, Brigadier, Commanding Malabar and Canara.

Fort Saint George, Revenue Consultation of 11th May 1858.

From the Officer Commanding Malabar and Canara, Cannanore, 26th March 1858, No. 101; to the Magistrate of Canara, Mangalore or elsewhere.

SIR,

In transmitting Extract from Provincial Orders issued by me, I have the honor to request you will have the goodness at all times freely to communicate and consult as much as possible with the Senior Officer Commanding the Troops in the Field, who will then carry on operations as laid down in the General Regulations, Section III, Page 19.

As provided for in para. 7, of course contingencies will arise more particularly in the present case where the intelligence Department as well as the local knowledge of the Country and Inhabitants is concentrated in the Magistrate, when he must of necessity exercise the power of disposing of the Troops on emergency without reference, but such is the exception I am quite sure it is unnecessary for me to say more than that the good of the service is as a general rule, best carried out by attending to the orders laid down for our guidance.

A copy of this has been sent to Captain Walpole, and I would beg the favor of your sending a copy to Mr. Robinson, the Joint Magistrate.

In the event of a Senior Officer joining the Field Force he will of course assume the Command.

From the Officer Commanding Malabar and Canara, Cannanore, 30th March 1858, No. 100; to the Magistrate of Canara, Sedashegur.

SIR,

1. In continuation of my letter of the 28th Instant, No. and subject as per margin, sent by express, and with reference to yours of the 25th idem to the Officer Commanding Mangalore, copy of which you forwarded to me, I have the honor to acquaint you that the Steamer "Thebes" will be dispatched for Sedashegur by the "Thebes" under the Command of an experienced Captain, also that the Brigadier does not consider it advisable for Major Hodson to leave Mangalore at this moment.

"Thebes" will touch at Mangalore and embark a sufficiency of men from the 16th, which Major Hodson will have in readiness on the arrival of the 2 Companies H. M.'s 66th, to make up the Detachment to 300 Rank and File exclusive of Officers and Non-Commissioned, Drummers, Lascars and Puckallies, the whole under the Command of Captain Fullerton of the 11th Regiment N. I.; and will be enabled, I hope, to reach Sedashegur on the 4th or 5th, which will be some time earlier than the proposed Detachment of the 16th under Major Hodson could have arrived, as they could not have left until relieved by the 66th, and then would not have exceeded 200 Rank and File, and the progress by Pattymar at this season is very precarious.

2. Major Hodson will then have with him at Mangalore 200 Rank and file of H. M.'s 66th Regiment. Troops as per margin, which I should consider ample.

3. As the Troops are proceeding by water on landing, they will be entirely dependent on your resources for Carriage, for Ammunition, Camp Equipage, sick Carriage and supplies, even if such were available here (what they are not) they would be too late proceeding by land, as also for the means of transport so far as they can go by water up the river.

4. When you next write I shall feel obliged by your favoring me with your opinion as to the strength and composition of the Rebels.

5. With reference to the latter part of my letter above quoted, I regret to say (if it would have been of use) there are no Mountain Mortars in this Arsenal.

From the Officer Commanding Malabar and Canara, Cannanore, 31st March 1858, No. 110; to the Magistrate of Canara, Shedsbegur.

SIR,

With reference to that part of my letter No. 100 of yesterday's date as follows, viz.

	Officers.	Rank and File.

Warfare against these Insurgents." From your local knowledge you will be able to point the best line for their operations in the event of assistance being granted. I have the honor now to transmit copy of an immediate Telegram just received from the Adjutant General of the Army, in reply to the Telegram above referred to viz. "Immediate—the Commander-in-Chief cannot adopt the suggestion in your Message of this day two forty-five P. M. At present he does not even know whether the disturbances are within or beyond the frontier of the Madras Presidency, and you should report fully on this point by letter." It is the duty "of the Civil Authorities to afford you full information on all points with respect to the strength of the Insurgents, the description of the Country in which the Troops are to be employed etcetra, etcetra, and if you are of opinion that your force is not equal to the enterprise in hand, you should so communicate to the Civil Officer. If the Civil Authority in the disturbed District cannot obtain adequate Military aid from you, Commander-in-Chief considers that the Civil Officer ought to make a requisition on the nearest Civil functionary of the Bombay Presidency, who, there is no room to doubt will call upon the Military Authorities nearest at hand to comply therewith, to the extent of their means," to which I would beg to call your immediate kind attention, and request you will at the earliest period afford me such information as you possess as to the strength and composition of the Insurgents, and their general situation, naming the particular localities they occupy above or below the Ghats.

2. From the slight information I at present possess, I consider the Troops at present in the Field in North Canara, are inadequate to hunt down and destroy the Rebels, so as to bring the insurrection to a speedy and decisive conclusion, to effect this desirable end I consider the Troops ought to be equal to holding all the Commanding points of communications in Force, besides having sufficient Troops to act on the offensive wherever necessary. In this view of the case, as no more Troops can possibly be spared from these Provinces, Mangalore being now entirely almost denuded of Native Troops, I have to request you will, if you should deem fit, immediately adopt measures for obtaining Military aid as mentioned in the latter part of the Telegram above quoted.

3. I may here mention, that I have every reason to believe that the Troops comprising the 300 Rank and File, of whose early arrival I informed yesterday, are of the most efficient description.

G. Adverting to the composition of the force from Bellary as per margin, I have this day Telegraphed to the Adjutant General to solicit His Excellency the Commander-in-Chief to Telegraph to the Secretary to Government, Military Department, as to whether a portion of the European Force and Cavalry could not be made available at Darwar or other Station in lieu of

Native Troops much required in the Jungle Warfare against these Insurgents." From your local knowledge you will be able to point the best line for their operations in the event of assistance being granted. I have the honor now to transmit copy of an immediate Telegram just received from the Adjutant General of the Army, in reply to the Telegram above referred to viz. 4. I shall at all times be much obliged to you for any information connected with the movement of the Rebels, the nature of the Country, &c., and trust you will also communicate freely on such matters with the Officer Commanding the Troops and Officers Commanding parties.

5. The presence of a Senior Officer being, I consider, necessary with the Madras Troops in the Field, I have appointed Major Ireland to command as long as he is Senior Officer, with his Adjutant as his Staff.

P. S.—Since writing the above, I have received instructions from His Excellency the Commander-in-Chief to proceed myself to the frontier, and put myself in communication with you, and I shall accordingly proceed by the "Thebes" Steamer.

CANNANORE.
1st April 1858. (Signed) J. FITZGERALD, Brigadier,
Commanding Malabar and Canara.

From the Officer Commanding Malabar and Canara, Cannanore, 20th March 1858, No. 101, to the Magistrate of Canara Mangalore or elsewhere.

In transmitting Extract from Provincial Orders issued by me, I have the honor to request you will have the goodness at all times freely to communicate and consult as much as possible with the Senior Officer Commanding the Troops in the Field, who will then carry on operations laid down in the General Regulations, Section III, Page 19.

As provided for in Para 7, of course contingencies will arise more particularly in the present case where the intelligence Department as well as the local knowledge of the Country and Inhabitants is concentrated in the Magistrate, when he must of necessity exercise the power of disposing of the Troops on emergency without reference, but such is the exception I am quite sure it is unnecessary for me to say more than that the good of the service is as a general rule best carried out by attending to the orders laid down for our guidance.

A copy of this has been sent to Captain Walpole, and I would beg the favor of your sending a copy to Mr. Robinson, the Joint Magistrate.

In the event of a Senior Officer joining the Field Force he will of course assume command.

From the Officer Commanding Malabar and Canara, Cannanore, 30th March 1858, No. 102, to the Magistrate of Canara, Sedashghur.

No. 101.
Intimating that 2 Companies of 66th were enroute to Mangalore, and that Native Troops from Cananore and Mangalore will be despatched for Sedashghur by the *Thames* under the command of an experienced Captain, also that the Brigadier does not consider it advisable for Major Hodson to leave Mangalore at this moment.

In continuation of my letter of the 28th instant, No. and subject as per margin, sent by express, and with reference to yours of the 25th idem to the Officer Commanding Mangalore, copy of which you forwarded to me, I have the honor to acquaint you that the Steamer *Thames* left Madras on the 28th instant, and may be expected here on the 2nd Proximo. I have ready for immediate embarkation 130 Rank and File from the Native Troops here, with a full complement of Officers and Non-Commissioned. The *Thames* will touch at Mangalore and embark a sufficient number of men from the 11th Regt. N. I. which Major Hodson will have in readiness on the arrival of the 2 Companies of 11th M. 74th, to make up the Detachment to 300 Rank and File exclusive of Officers and Non-Commissioned, Drummers, Lascars and Pockalies, the whole under the command of Captain Fullerton of the 11th Regiment N. I., and will be enabled, I hope, to reach Sedashghur on the 4th or 5th, which will be some time earlier than the proposed Detachment of the 16th under Major Hodson could have arrived, as they could not have left until relieved by the 66th, and then would not have exceeded 200 Rank and File, and the progress by Pattimar at this season is very precarious.

2. Major Hodson will then have with him at Mangalore 200 Rank and file of 11th M. 74th Regiment. 90 Rank and file with Native Commissioned and Non-Commissioned in good proportion. Troops as per margin, which I should consider ample.

3. As the Troops are proceeding by water on landing, they will be entirely dependent on your resources for Carriage, for Ammunition, Camp Equipage, and Carriage and supplies, even if such were available here (what they are not) they would be too late proceeding by land, as also for the means of transport as far as they can go by water up the river.

4. When you next write I shall feel able to say more of the composition of the Rebels.

5. With reference to the latter part of my letter above quoted, I regret to say (if it would have been of use) there are no Mountain Mortars in this Arsenal.

6. Adverting to the composition of the force from Bellary as per margin, I have this day telegraphed to the Adjutant General to solicit His Excellency the Commander-in-Chief to telegraph to the Secretary to Government, Military Department, as to whether a portion of the European Force and Cavalry could not be made available at Darwar or other station in lieu of Native Troops much required in the Jungle Warfare against these Insurgents, from your local knowledge you will be able to point out the best lines for their operations in the event of assistance being granted. More Native Troops do not appear available from this quarter.

From the Officer Commanding Malabar and Canara, Cannanore, 31st March 1858, No. 110, to the Magistrate of Canara, Sivasagar.

With reference to that part of my letter No. 100 of yesterday's date as follows, viz:

	Oficer	Rank and File

adverting to the composition of Force from Bellary as per margin, I have this day telegraphed to the Adjutant General to direct His Excellency the Commander-in-Chief to Telegraph to the Secretary to Government, Military Department, as to whether a portion of the European Force and Cavalry could not be made available at Darwar or other Station in lieu of Native Troops much required in the Jungle Warfare against these Insurgents. From your local knowledge you will be able to point the best line for their operations in the event of assistance being granted. I have the honor now to transmit copy of an immediate Telegram just received from the Adjutant General of the Army, in reply to the Telegram above referred to viz: "Immediate—the

Secretary cannot adopt the suggestion in your Message of this day two tortoise

At present he does not even know whether the disturbances are within or beyond the frontier of the Madras Presidency, and you should report fully on this point by letter. It is the duty of the Civil Authorities to afford you full information on all points with respect to the strength

of the Insurgents, the description of the Country in which the Troops are to be employed, etcetra, etcetra, and if you are of opinion that your force is not equal to the enterprise in hand,

you should so communicate to the Civil Officer. If the Civil Authority on the district Dis-

trict cannot obtain adequate Military aid from you, Commissioner-in-Chief consider that the Civil Officer ought to make a requisition on the nearest Civil functionary of the Bombay Presi-

decy, who, there is no room to doubt will call upon the Military Authorities nearest at hand

to comply therewith to the extent of their means, to which I would beg to call your attention, and request you will at the earliest period afford me such information as you

possess as to the strength and composition of the Insurgents, and their general situation, naming the particular localities they occupy above or below the Ghats.

From the slight information I at present possess, I consider the Troops at present in the Field in North Canara, are inadequate to hunt down and destroy the Rebels, and to bring the insurrection to a speedy and decisive conclusion, to effect this desirable end I consider the Troops

ought to be equal to holding all the commanding points of communications in Force, besides having sufficient Troops to act on the offensive wherever necessary. In this view of the case, as

no more Troops can possibly be spared from these Provinces, Mangalore being now entirely almost denuded of Native Troops, I have to request you to if you should deem fit, immediately

adopt measures for obtaining Military aid as mentioned in the latter part of the Telegram above quoted.

I may here mention, that I have every reason to believe that the Troops comprising the 300 Rank and File, of whose early arrival I informed yesterday, are of the most efficient description.

I shall at all times be much obliged to you for any information connected with the movement of the Rebels, the nature of the Country, &c., and trust you will also communicate

freely on such matters with the Officer Commanding the Troops and Officers Commanding the

The presence of a Senior Officer being, I consider, necessary with the Madras Troops in the Field, I have appointed Major Ireland to Command as long as he is Senior Officer, with his

Adjutant as his Staff.

P. S.—Since writing the above, I have received instructions from His Excellency the

Commander-in-Chief to proceed myself to the frontier, and put myself in communication with you, and I shall accordingly proceed by the "Tiber" Steamer.
