Fort Saint George, Revenue Consultation of 18th May 1858.

No. 5. Read the following Extract from the Proceeding of the Board of Revenue; dated 20th April 1858, No. 1355.

In Con. 23d March 1859.

Read again letter from the Collector of Madras, dated 18th March informing the Board that the Survey of the Triplicane division is impeded by the refusal of the Bramin householders to allow Mr. Plumbc, the Surveyor employed on the work, permission to enter their premises.

In Con. 20th April 1858.

(Here enter No. 51.)

The Board resolve to submit these letters for the consideration and orders of the Right Honorable the Governor in Council. Since the receipt of Mr. Cunliffe's second letter Mr. Plumbé, the Surveyor, has attended the Board's Office with his plans and explains that the boundaries of individual holdings cannot possibly be traced without access to the premises, as buildings of irregular forms in most cases adjoin the boundary line and prevent an external measurement

2. There is no doubt the Board believe as to the necessity of entering the premises of the Triplicane householders if the Survey is to proceed: this was done last year when Mr. Plumble, in spite of much insult and opposition, Surveyed the Mussulman quarter of Triplicane, the only alternative is to entrust the inner measurements of each block to a Native Maistry, whose proceedings must necessarily be in every respect less reliable than those of the Surveyor.

3. Mr. Cunliffe has warned householders, disposed to oppose the Surveyor's entrance, that they render themselves liable to punishment under Act XII. of 1851, and the Board concur in the propriety of the course he adopted in so doing. It has not however been followed up by Mr. Cunliffe, because the Commissioner of Police has expressed himself averse to such proceedings being taken at the present time.

4. The matter is thus taken out of the Board's province and calls for the orders of Government.

No. 6. Extract from the Proceedings of the Board of Revenue, dated 20th April 1888,
No 1397.

In Cons. 20th April 1858. Read letter from the Collector of Madras, dated 16th April 1858, stating that his Surveyor is, in almost every instance, refused admission into the houses of the inhabitants, for the purposes of Survey.

(Here enter No. 60.)

- No. 7. ORDER TIERLON, No. 627; dated 12th May 1858.

Before passing orders on this reference the Government resolve to request the Commissioner of Police to lay before them the reasons which induced him to express himself adverse to the Collector's proceeding under Section XIII. of Act XII. of 1851, as the Board, in the 3rd paragraph of their proceedings, represent that he did.

Fort Saint George, Revenue Consultation of 18th May 1858.

2. The Government resolve at the same time to forward to the Commissioner the Extract from the Board's Proceedings dated the 20th Ultimo, with its enclosures, from which Colonel Boulderson will observe that what originated in an objection to the entrance of the Surveyors into the houses of Brahmins has now extended to a general objection participated in even by the East Indians.

(Signed) W. H. BAYLEY,
Acting Secretary to Government.

No. 1355.

Extract from the Proceedings of the Board of Revenue, dated 20th April 1858.

In Com. 22d March 1858. Read again letter from the Collector of Madras, dated 18th March 1858, informing the Board that the Survey of the Triplicane division is impeded by the refusal of the Bramin householders to allow Mr. Plumb, the Surveyor employed on the work, permission to enter their premises.

In Com. 20th April 1858. Read also a second letter from the same Officer, dated 10th Instant, forwarding a statement by the Surveyor on the same subject.

The Board resolve to submit these letters for the consideration and orders of the Right Honorable the Governor in Council. Since the receipt of Mr. Cunliffe's second letter Mr. Plumb, the Surveyor, has attended the Board's Office with his plans and explains that the boundaries of individual holdings cannot possibly be traced without access to the premises, as buildings of irregular forms in most cases obscure the boundary line and prevent an external measurement.

2. There is no doubt the Board believe in the necessity of entering the premises of the Triplicane householders if the Survey is to proceed: this was done last year when Mr. Plumb, in spite of much insult and opposition, surveyed the Mussulman quarter of Triplicane, the only alternative being to entrust the inner measurements of each block to a Native Maistry, whose proceedings must necessarily be in every respect less reliable than those of the Surveyor.
