Personal | Nat | Regular Team | For the South | Navy | Not known | The accession of 61 & 62 | Not known | L. Lieutenants Venables Battersby Swann — L. Cook Commodore Thornborough Swann — | None — | | | | | The Swan is watched from time to time by a Man of War of the eight Seventies known known Russian or Turkish Navy — I would therefore recommend that the Swan may be at once purchased for the Service —

The Swan appears in Class 7 of the Y.R.C. of 1st Division & should not be fully adopted by him on the known grounds — Does not appear in A or B Statements & Remarks from the Central Office I conclude that the Eagle

Right of the Case was omitted to be sent to the Central Office it is being sent now this 22nd Feb.
