(B) Illegible

For the personal 1898-0 For the benefit of the shob in consideration of this Circumstance, as well as of the shobness of the period during which the grantee held possession of the village remount the case for the special indulgence of the Commissioner.

The Government having ruled that limits tamed ought to be disposed of according to the terms of the original grant, do not know how far this indulgence could be conceded.

Considering the conflicting nature of the relation which now exists between the shobin and the mirassid, any proposal from the former for any purchase must be looked upon as unusual. But very probably with hopes of future amiable settlement and the prospect of purchasing all available shares in the mirassid, the present shobin like any of the proprietors

Shivaram Madras

Swaram Bandla

a account of 23

1249

Board's proceedings 7 dated 6th July 1840

To Collector from Board 6th July 1816

Government order 29th June 1840

The adopted This Shivaram was present on the death of the present holder the grant lapses to Government. He was the father of the present incumbent in appreciation of his services under Government, the grant was given to his wife - Bandha of the present holder. The grant is limited to 3 lives out of 310 years with the present holder. The date of the grant is 10 years beyond that on which the village was put into the possession of the grantee subsequent to his demise. He and five years subsequent to his demise. The period of his actual enjoyment being only 3 years. The kaul itself calculates the receipt of that document (the adoptive father of the present incumbent) as the 2nd life.

In consequence of certain disputes which ensued between the grantee and the mirassidars of the village over the management of the village was taken up by the Government and the Government was bought after by the guardians of the present incumbent during his minority in 1852. The request was granted and the result is that the same system of management is now in force in Sivarami villages. Since 1812 although the course of settlement has not been uniform, it is materially of fewer the interest of the shobin and in various ways is not without advantage. He holds a small share in the mirassid of the village. In the calculation made during the present enquiry the result is that the shobin is more amiable to him as compared with the usual advantage of the proprietors of the village.

The survey measurement exhibits but a small increase, a bare that of 1819 to wit 8-11-0 thinner of the other lands in the village shows a general increase over the Tarapari. I would under these circumstances confirm the entire extent to the Jajora so long as the source is rendered without any charge of quit Rent. The suit averred to above arose in consequence of certain disputes regarding Mirasli Rights between the Shoodrimnars and the Jajora manager. I would class the said father of the present manager	The extent shown in Mr Barward's Tarapari is 7 karnis while that exhibited in the survey is nearly 7 documents produced by the document of 1812 show that the Tarapari area Swarann's land	Confirmed as per survey Measurement (Sd) A. years. The processes of the
brain are amazingly told—
we do, deposit— to be removed
& changed into all sorts
of things. I have been told
