To be confirmed in one S.D. as a Tope

Instructions as subsequent Inam

J.K. 27/4/68

Case No. 1
Devadayam or Dharmadayam

Since passing the above decision a Public complaint was made to me on behalf of the Kammalar Community that it was the Dharma Tope that was planted by Kammalars and that it was in their charge - the Produce is appropriated by Kammalars for a Charity on the High Road to Conjeeveram, which is to open a Water Pandal for Travellers during the Conjeeveram Vishnu Pagoda festival and to hall the Dharmarajen Koil Procession in the Tope in years in which Car-vette takes place - For this Charity the Kammalars spend out of their pocket besides applying the Tope Produce - Their Community has kept a Pandaram to preserve the Tope and they have allowed him to enjoy (3) and odd Mangoes of their own choice as a Remuneration for his Services providing him with a house built on the Tope. The Pandaram lives from 60 years on the Tope. It appears however that the Villagers used for some time to carry away the Tope Produce on the pretext of having spent 10 Rs or there abouts on account of the Kammalar Community the alleged object of the above Charge being to prevent the Resumption of the Tope during or after the Pymash - The Kammalars still spend money for the Charity, kept up the Tope of which the produce was usurped on the 1st December 1865 however the Kammalar Community redeemed the Tope Produce from further interference of the Villagers by paying them the alleged debt. To this effect they produced a Bond executed to it by Villagers on that date from which date the Tope Produce also is enjoyed by its

The Karnams in this case having fraudulently falsified the Permanent Register I have sentenced them to 25 Rs fine each under Regulation IX of 1822 and asked the Tasildar to punish the false claimants and those that attested his statement.

I therefore Recommend that in lieu of the wrong decision first passed, which I cancel, the Tope may be confirmed in one S.D. to the Kammalar Community free of tax as the Managers of the Water Pandal and other Charity - As it is now shown that the age of the Tope is more than 50 years and that the entry in Pymash is incorrect, a free S.D. is Recommended.
