To be compared
the picture is large 7.50
as the same is up 1063
last performance.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with visible creases and some minor discoloration or foxing. There are faint, illegible markings on the page, including what appears to be a signature or set of initials in the upper right quadrant and some faint text in the lower left. A small, dark, rectangular object, possibly a piece of tape or a small stain, is visible near the bottom center. The overall tone is warm and aged.

The following is a list of the names of the
 persons who have been appointed to the
 various committees of the Convention.
 The names are given in the order in which
 they were called upon to accept the
 appointment.

in forming the mouth of the river averaged 112.50 feet and cost finally
was according to the Reports \$24000. The construction of 1848
is the best.
