The D² Col² values the Village at Rs 943 - He values the Wet at 4 Rs and the Dry at Rs 2-4 per acre - He values the waste
 Wet Dry at 8 Rs per acre as he says - Perhaps he meant at 4 annas per acre - for the Berig mile stand at Rs 1040
 where the former rate is adopted - Whatever may be the case, I think it safe to confirm
 his valuations as his thought more than usual allowance appears to have been made by him
 for the clearance & libbendi - especially because as is shown in margin in the next column
 at any much higher valuation were we to go by the average Collections of 5 or 10 years or by
 the average of the two averages & reduce the allowance to 10 Per Cent. It must be remembered
 that the D² Col² though he considers it safe to go entirely by the average. Summary
 does not suspect the genuineness -
