a dispute arose among the <sup>share</sup> holders  
 as to registration. & it appears from the start of  
 one of the holders' (No. 11), that it was decided by the  
 latter at that time that the shareholding should be held  
 under gift until the contending parties should come to  
 some terms & apply for the Registry jointly. This joint appli-  
 cation was made only a few years ago, <sup>(about 1855)</sup> and rules for registry  
 was revised in Decr 1860 - and the name of No. 11 was returned  
 in the Work. - This Regd. holder & his other shareholders have  
 now jointly applied to me for the Registry of the shareholding  
 in their names, & also for the specification of the <sup>same</sup> shares  
 they already hold <sup>jointly</sup> & other villages in the  
 same terms as the recommendation made for their companies  
 has been for the value of £ 1000. & they <sup>have</sup> <sup>been</sup> <sup>proposed</sup> <sup>to</sup> <sup>be</sup> <sup>made</sup> <sup>as</sup> <sup>one</sup> <sup>of</sup> <sup>the</sup> <sup>share</sup> <sup>holders</sup>  
 They have likewise presented to me a statement of the terms on which they have  
 as respects the <sup>same</sup> shares of the villages

There is a Wharfedale Peak of 23 months supply water irrigates the adjoining Saravani Village of "Agharam". The proportion of water to which this Shrivastha is entitled is said to be  $\frac{3}{8}$ . The tank bed is rather better than many of the surrounding ones. It is situated at the base of the peak; the bed is the same as the one at the base of the mountain. In character the water is the same.
