② That item requires no further explanation entered in the Land & Revenue account of 1776 is 21-3-—, and in the Land of 1810 is 18-—- The difference between the two areas appears to have been reserved previous to 1810 and certainly before the confirmation of the village by the present Govt in 1802. The reservation could not therefore be questioned. Even thus being I have adopted the area given in the Land account and deducted from it the reserved Kulkarni's share of 14 Kharis which were incorporated for manure by Govt under the other transactions. It must be understood that the Kharas are left to the Govt as shown in the account in 1806—
