Adangottangudi

Page 9

D 937/49 3503211

This is one of the Villages in the zamindari of Raimondpuram. Half of the Village was granted for the support of the Sidi Jagannada Temple in Tripallani and the remaining half as Daruvanam. The former is a permanent grant and the latter is a hereditary grant.

The Temple is efficiently kept up. It is a religious place. The Temple is commonly known by the name of Daruvanam Temple. Some half Village is granted under Rule III. Class one Tax Free. The two grants are supported by all the accounts of 1912. No talk was about the Area or about the boundaries on the part of the Raimond Puram. The boundaries correspond to those in the account of 1912. Hence the area of 617 Acres & 90 futs is confirmed here. These lands are situated within the proper limits of the Village. The Divestiture portion has no Patta. It was lost. The Temple & the lands appertaining to it are under the management of the Raimond Puram.

The Daruvanam portion of half Village is enjoyed as shown in the margin. The lands are divided. The name of the Off. Grantee & Grantee of the Daruvanam portion of half Village is not known. The persons 181- to 184 of 1912 say that they are descendants of the Off. Grantee whose names they are unable themselves to state. (Vide numbers)

By us from the Magistrate 19th August 1865 N 98, & 11 October 1865 N 141.
 N 10 to 18 — The persons in Col 16 are the descendants and Collaterals
 of N 2 in Col 15 —
 N 5 to 8 — Col 16 are connected with N 3 in 7/12/5 — by affinity —
 The Male Descendants of N 3 in 7/12/5 say that they hold
 their shares long ago to others & have no interest now in
 the Village —
 N 16 to 49 — Col 16 can not be traced to any of the parties
 in Col 15 —
 N 4 in Col 15 is now extinct having $\frac{3}{16}$ of the Village he
 held to others — the remaining $\frac{5}{16}$ ^{the} $\frac{3}{16}$ ^{the} and $\frac{5}{16}$ ^{the}
 that remained which forms the Charamasaram Half
 of the Village have ~~not~~ changed several hands thro
 numerous bona fide Transactions which it is more
 improbable trace, and are now held by the parties
 in Col 16 — tho nothing is known of N 145 in Col 15 —
 The Charamasaram portion is held by present holders
 from a period of 40 years —
 It is not under these circumstances that there
 is no legal ground for imposing any burden
 V.R.
 22/3/66 —
 Confirmed accordingly on 18th September. 2 R No 47
 under the Jodi payable to the Zemindar.
 20/3/66 NMS
 Vice President and C.

Valuation

II. The Taluk of Adagottanigudi is a wet land depend upon Tanks. They are in ripeness. They are fed by Temple Streams. Half of the wet lands are flooded as usual. Most of the Dry lands are flooded as usual. This is not true. The nature of the soil has been exaggerated as usual. Soil is good. I have no materials to enter here. The average Wet assessment of the country is 1/2 Rupee. The Dry rates vary from 1/5 to 1/8 per acre. The average income of the Village is 255 Rupees per annum. This is not true. In consideration of the fertility of soil & the promise of valuation of the Village as follows.

Wet 200 a full rate at 1/2 Rupee — 100 —
 Wet 90 a full rate at 1/2 Rupee — 45 —
 Dry 200 a full rate at 1/2 Rupee — 100 —
 Dry 73 a full rate at 1/2 Rupee — 36.5 —
 Total 109-3-3.
