(Continued from p. 222) The Village consists of 9 equal
= Villages. They are enjoyed as shown in the margin of the first side -
- Pompe or Doh is paid on the number of Villages equally
= & permanently - Lands are divided. Lands are exchanged
= once in 20 years - It appears Chattrum portions ^{also} are exchanged
= with the Darnasaram portion ~~as~~ once in 20 years - The
Mubayirams complain against this measure bitterly - because
Chattrum portion of half "Pilegeri" not well managed while the
Darnasaram manage & improve the lands & leave ^{them} into
the hands of others once in 20 years - Now they request to put
- a stop to this exchange & make the half Village now held
- by them since the last 11 years as a permanent share - This
request seems to be just - I recommend the abolition of the
- exchange in the Darnasaram & do not think will have any effect

- When Risk the Mahagamas about the details of their net profits
 - entered about 1/2 acre & say that they never thought well before
 - preparing the account. Scarcity of water is also felt in some years.

- For consideration of the fertility of soil see I frame the valuation of the
 Village as follows after entering into much detail with the Mahagamas
