(Continued from first page) Wet lands are irrigated by one Tank. It is fed by Jungle Streams. The Tank is in repair. The Mahajanams of Ramanad 3 1/2 being wet & 1 1/2 being dry as waste. When I questioned them about their details they say that there is not in fact long waste. They follow the land as long as they can get it. They say that some lands are left waste from want of water. 1/2 of waste lands may be used as long as they are left uncultivated annually. Soil is not of a very superior quality. Old lands are not cultivated any time. Paddy is not raised. Paddy or Paddy crops are raised in the bed of the Tank & in 20 or 30 Acres. The average net profits of the Village are 430 per annum. There is no usual. The average rates of Goat & well as peninsular Salage are given in the margin. Scarcity of is felt in some years. The average rates given in the margin are very high. They are not suited to these lands. In consideration of the quality of soil & of the value of the valuation is as follows

* Two Pigs per annum high enough for the District

Callings obtained by Mahajanams 20 Annual 30 per year 60		
Costs 0 3 3 3 31 3 32 3 33 3 34		137 80
Dry 40 Annual 1/2 of year	20	122
14 0 1/4 3 3 3	36

Valuation

Wet lands depend upon a fault of moderate size - It is fed by a single stream
 annually in ordinary seasons - There is not much waste water in Dry & Wet - Soil is not of
 a very superior quality generally - Wet lands are not cultivated & have to some extent
 annually & occasionally - Harvested of moderate - Harvest is raised on one or two acres -
 The Village is on the whole in flourishing state like the neighbouring Villages -
 Scarcity of water is felt rarely - I have no materials to enter here the average amount of the
 adjacent Villages - The average Dry rate of the adjacent Agri Villages of Adakurdi &
 Rasavanery are at 0-11-3 per acre - These are contiguous Villages - The average amount of
 the Village as per statement of the 16 is 2-4-5 per annum - This is not true - With reference
 to the fertility of soil & I frame the valuation of the Village as follows - after entering
 much details - within the 16-16-

Note Dry lands are charged with
 a lower rate than that of the adjacent
 one because there is some waste in them
 though not to such an extent as stated to be
 by the Mahajanams.
