The Wet lands depend upon two small Lakes. They are not in the way to repair - from want of
 unanimity among the shareholders - who are likewise the notorious game lawners -
 The Lakes are fed by Douglas Springs &c. The Mahoyanams say that 36 Acres of Wet & 608 Acres
 of Dry are cultivated annually & that the rest is of about 10 or 15 years waste - They say that
 the lands are left waste from want of unanimity among themselves & from want of rights &c.
 I doubt, think that there is much exaggeration in the preceding Warrants - Part is of a superior quality,
 generally - Wet lands are not cultivated & hence - No Grass crops are raised - The Village is in
 such a state as it ought to be from the superiority of soil &c. owing to the negligence of
 the Mahoyanams I have no occasion to enter here the average assessment of the adjoining Hyem
 lands - The Rajah's Officer reported me that there was no Village or detached accounts - The average
 income of the Village as far detached of the Mahoyanams is 130 Rupees - This is not true -
 The adjoining Pringah rates are not about 200 per Acre - Scarcity of Water is not felt -
 for fertilizing the lands that are cultivated usually - After weighing the fertility of soil &c.
