III Wet-lands in the Ridge depend upon one Tank of moderate size - It is not in-
-thorough repair. It is fed by a Jungle Stream - The Tank is filled annually -
The Mahajanams complain much of the disasters occasioned by the floods of Runder
or Nagmada River - They say that generally their lands are washed away by the
-floods of the River - & that barely they are ~~not~~ sustaining considerable loss -
This seems to be true to some extent - The Mahajanams of Runder 70.
Acres of Wet & 360 Acres of Dry but the lands full water annually & the rest as waste -
They say in one or two a single time that these waste lands are of 20 years waste -
& that they are grown up with Jungle - From the individual statements of the
persons, it appears that 100 Acres of Wet ~~are~~ & 450 Acres of Dry are full water
annually - & that the remaining waste lands are not full water since the last 20 years
- 20 times - Nangah & Punjab Lands are of
moderate - If the lands are not washed a
