

Aracindal otherwise called Tunkata Vinuigava Amurru

Registr. No. 127
Sheet No. 1

To arendal otherwise called Jor

This is one of the Dammassians in the Territory of Rannadpurum. This was granted by the Government on 11th Feb 1813 for
= arbarment. This is a hereditary grant. This is in uninterrupted possession of its holders since the date of the grant. This has a Patta on
= plain paper as usual it bears neither signature nor seal of the Grantor. The Village is supported by the accounts of 12 =
The Patta is not a registered one - The Village consists of 12 equal Thittas. The lands are divided. The lands are exchanged once in 12 years.
But it was not done since the last 30 years - Tax is paid on the number of Thittas equally & permanently. In the Census account of A.D. 1815
= It is said that the Patta of the Village is engraved on copper plate. The Village is not entered in the English Account of A.D. 1815 from some
mistake or other. The present area of the Village exceeds that given in the standard account. But all these lands are situated within the
proper limits of the Village. The Government Vallah finds no fault with the boundaries of the Village. Hence the area of 93 Acres is confirmed here.

The following the purchase of 16 purchased lands in A.D. 1845 & 1854 for Rs. 130. Bill of sale is on plain paper & another is on
Stamp paper.

A.D. 1874. Bill of sale is on plain paper.

Stamp paper
 1 The person No 3 of 16 purchased land in A.D. 1854 for Rs 2176. The Bill of sale is on plain paper.
 1 The husband of the widow No 6 of 16 purchased some of the lands in A.D. 1854 for Rs 22. The Bill of sale is on plain paper.

Valuation

Sheet No 2

III. The land is upon one small tank. It is fed by one of the channels of the river which is one of the influential rivers in the District of Mysore. The tank is covered in strength. The Mahajanams say that it is 26 years of age and of 10 years waste from want of water in Mysore. They say the water comes in the tank. Soil is of a superior quality mixed with alluvium. The Mahajanams say "Tondal". The land is cultivated occasionally by the Mahajanams. Fertility of the soil is felt in some years on peritment of the Mahajanams. The results of my enquiry go to prove that there is not much waste in the soil. Dry lands. The Mahajanams say that there is much advancement in the cultivation. On the whole the village is in flourishing state & the soil is of a superior quality. The average rate of 1000 as well as 10000 are given on the back of the first sheet. They are no moderate. With reference to the fertility of soil &c, I frame the valuation as follows. A fair and trustworthy statement of Mahajanams, the average profits are 925. Of this if the loss of 22-10-8 is deducted, the net profits are 897-10-0. This is not true - nor fair compared with the fertility of the soil.

Net Profit 20 Annual - 6 - 10 per annum 80 -
Occasional Cost 17 at 2 1/2 per 100 42-8-0 122-8-0

Avarendal

This is one of the Devargum villages in the panyasary of Ramnad granted for the support of the Temple of Rajalasa Nadeswami in Rajasungamangalam.
 - This is a permanent grant. The land is no other. It was lost. The Temple is efficiently kept up. Daily ceremonies are observed. The building is in good order.
 - The area of the village is assessed at present in the account of 1711 by J. Anon. This is trifling. No mention about the boundaries which correspond to those in the
 - account of 1746, on the part of the panyasary. Hence the area of 191. A. is confirmed here.
 II. Cultivators depend upon one Land. Lands are cultivated annually except a few acres. Pungab is cultivated in full. Soil is not of a very superior quality.
 Average net profits of the village is 194. - 3. This being given it is confirmed here as the valuation of the village by J. of the Register.
