

21. 11. 1870

This is one of the Darnas names in the former survey of Rancho de Pecos. It is not known from public accounts or by whom & to whom the Village was granted. There is a territorial & personal grant appears from the Account of \$7211⁰⁰ of the ~~State~~ ^{Public} Account of A.D. 1815 - The No. taken about the area or about the boundaries on the part of the Ranger's Parcel. The boundaries now inserted in the new declaration statement correspond to those in the Account of \$7266. Hence the lot above 836 feet situated within the said boundaries ~~corresponding to those~~ ^{the} are confirmed here -

The persons of 16 are divided Brothers. They plead that their grand father purchased the entire Village in A.D. 1811, 1812 & 1814 on 3 occasions for prices of 20, 10 & 10 pesos. Three bills are on file for your leaves - These bills of sales are not attested by witnesses. The persons of 16 say that it is not usual in those days to have bills of sale signed by witnesses. I have no means to say that the bills of sales are genuine ones. At the same time there is no evidence to say that they are not genuine ones. The Mahatgamans of the adjacent Neger Villages say that they know well that this Village is in possession of the family of the persons of 16 since long - There is not a single person who comes forward claiming for this Village - The persons of 16 have produced receipt granted to them by the Spanish Government ^{for} the land 20 years ago - As there is no direct evidence to prove the genuineness of the Village, though the Mahatgamans of the adjacent Villages say that this Village is in possession of the persons of 16 since long, I recommend to confirm the Village upon the part of 16 on the assessment.

See Mr. W. H. 14
Mortimer's
debit of 1866.
You are in accounts with
him later than 20 years as
shown ~~in~~ the receipt of
