N^o 64 & 65 - ~~These~~ The lands entered in their names ~~are~~ were once their patrimony. They ^{were} sold
to ~~the~~ by their ~~father~~ late father to his elder sister son. who sold them to his mother's younger
son. After all a month ago the lands reverted to the boys N^o 64 & 65 by a Razer name the
the Mooriff's friend of ~~the~~ Maria Macrae. The pair N^o 64 & 65 are actually now in
possession of the lands.

The father of the collector of the person No 6 purchased land in A.D. 1876 for \$4000
3000 from one of the shareholders in the Village - Bill of sale is on plain paper
The person No 50 of 18 purchased of a Dutch long ago from 2 D.D. Bill of sale
is on plain paper - Translation is in English -

The persons N^o 45 & 47 of 1816 claim $5\frac{1}{4}$ Valley of the lands in question opposite to the Widow N^o 28 & the person N^o 29 on the ground that one Talcott Campbell was in and the said $\frac{1}{4}$ Valley to them for years 1788 - 12 years ago, executed ^{two} Bills of sales ~~on~~ plain paper signed & sold the lands in question to the husband of the Widow N^o 28 of 1816 Eight years after the first sale. They admit that they have no entry or record up to this day. It is proved that the aforesaid Subj^r is the $\frac{1}{4}$ Valley in question to the late husband of the Widow N^o 28 of 1816 for years 57 from years ago. The Bill of sales on plain paper signed Transaction proved to be Bonafide. If the argument of the persons N^o 45 & 47 were true, they ought to have enjoyed the lands ever since their claim is not proved. The claimants are referred to find fault.

Valuation

[...] There were two Lands formerly in this Village. One is fell in disease half century ago & another is in repair which is very large - It is fed by the river Tazungar
Scarcity of Water is felt in some years. The Malabar names state that there is not a single year in which the entire area of wet land ^{was} cultivated. That on an average 73 Acres
are cultivated annually. On questioning them about the lands claimed as waste, they gave a written Register stating that out of 827 fens of Wet Waste there are 80 fens that
are not cultivated in any year, 80 fens that are cultivated 5 years ^{ago}, 49 fens that were cultivated 10 years ago - If you Regulate that out of 827 fens of Dry Waste, 140 fens are
of 5 years waste, & 15 fens are 8 or 10 years waste & the rest are arable soil in which Paddy or trees are planted - Wet lands are cultivated 2 times in any year. Cost of a acre
superior quality. The species of soil are Harriet, Manner, & Pottel - Timber is raised to some extent - Poplar is Panibrit & are raised in dry lands to some extent -
The average net profits of the Village as per statement of the Malabar names, minus Land, are 2430 fens per annum. If the Land sum is not deducted, the ~~net~~ real income
comes to 550 fens - This is a large & important Village - The average rates of Govt as well as zemindary taxes are given in the 2^d side of the first sheet of the Register -
I calculate the valuation as follows - I class 150 Acres all the lands cultivated annually - & the rest as waste. These 150 Acres pay ~~produce~~ a gross outturn of
~~600~~ 1000 Rallien or at 4 Rallien per Acre. Of this Melwaram is 300 Rallien & the average rate at 2 fens per Rallien, the value of 300 Rallien
is 600 fens. This is a ready & liberal calculation as it is seen from the average rates given in the 2^d of the 1st sheet. Melwaram, at the usage of the Village,
has the gross amount 600 fens. Dry & waste lands, 140 fens, at 2 fens per Acre, come to 280 fens. Total 880 fens.

The Mahajanams' statement of the lands as waste though it is not so really - they have not provided for their annual accounts on the estate of waste
 Again in consideration of the above for calculation I frame the valuation more liberally as shown below - Only two or 3 Mahajanams argue about the matter of the
 Village & the rest speak not a word nor give any information of real profits or

A few hours after the completion of the settlement of the Village, several complaints were presented to me
 about the Mahajanams' statement to me about the state of the Village was quite false -
 I then took a walk about the Village & made inquiries privately, & arrived at the
 conclusion that the complaints are not unfounded. I then went from Ramnad to Ramnad for that settlement of the
 I proceeded myself to the Village & examined all the lands in the presence of the Mahajanams & found what the
 state was quite far - The Mahajanams were quite ashamed to tell to me the Mahajanams' find, I brought all the lands in the
 Village to record. The land is a very large one - The extent of it is 70 or 80 pice - I found small extent of
 Wet lands to be waste - Even these are not of an unimproved state - The soil is of a superior quality generally -
 10 or 12 pice situated on the banks of the river of Vayalar, are very fertile - I saw 40 or 50 pice of land with
 and some other crops - As the Mahajanams who are a great number make such a noise at the time of the settlement, I was
 somewhat surprised about the state of the Village - Now I have examined the state of the Village & found that
 the Village is situated close to Ramnad - The average of the land is 1/8 pice per acre - I have also
 in consideration of the fertile ground, which I have ascertained from the Mahajanams' statement

I took down notes when I examined the lands in the Village	Wet 240 Acres Cultivated at 2 1/2 pice per acre	600
	Wet 80 pice of unimproved ground at 1/8 pice per acre	10
	Dry 50 Acres Cultivated at 1/8 pice per acre	6 1/4
	Dry 282 Acres Cultivated at 1/8 pice per acre	35 1/4
	Total	701 1/4

Note - The Mahajanams say that they will not agree to my valuation of the Village of my original valuation & find - I have not given the unfairness of my valuation - I have not given the unfairness of my valuation - I have not given the unfairness of my valuation -

The Indians appeal against the revised valuation
of the Deputy Col. & request to confirm the 1st valuation.
The rates adopted by the Deputy Col. are fair but it is
very doubtful whether his assumed extent of cultivation is correct.
This will make all the difference. Sub Magistrate will be requested
to have the lands examined & report what the Indians are ^{will be} willing
to pay and if the rates adopted by the Deputy Col. are changed upon the
true extent of cultivation - J.M.

8/2/65 It above request was referred to the Col.
& a reply has been received from the
Officer. All decided
