I. This is one of the *Dammus anam* villages situated within the limits of the panniary of Ramnad. This was granted by the panniary 1018 to the person 1013 for cultum rice. This is a hereditary grant. This is in uninterupted possession of its heirs since the date of the grant. This has no other title. It was lost. The Village is supported by the accounts of 1012. The Village consists of 6 equal taluk. They are enjoyed as shown in the margin. The lands are under rice. . .

II. The area of the Village corresponds to that given in the account of 1018. Previous to this the panniary Taluk passed the boundaries. Hence the area of 6 acres is confirmed here.

III. The 1016 are the descendants of the Original Grantor. But as the Village was granted thousands of years ago for Perurava Shastri's service, the 1016 are unable to detail the relationship existing between them & the 1013 or 1015. The relationship is very remote - is not in indirect line. It is known fact that the 1016 are the descendants of the person 1013.

IV. Wet lands depend upon a small tank. Dry & Wet lands are not of a superior quality. Lands are full of trees & are generally -
