in Lthan
ed. 1851

The King's Vakil at Ahmedabad was reported at the time of the settlement of the Village of Chattram that arian darsan is being conducted in the institution without frustrating the object of the grant. Village's management was returned by the zemindar as it was in a degraded state some time ago. It appears that the zemindar has not any objection to restoring the Village to the Chattram. The zemindar must be made to restore the Village of Chattram to the Chattram. The Manager should be directed to fulfill the object of the grant by giving food to travellers. The King's Manager never furnished any information regarding the Chattram though he was asked to give the details of the same. & the cause of the zemindar in refusing to restore the Village of Chattram.

II - The wet lands of the Village are partly being cultivated annually & partly being kept waste. From want of water the soil is good. The average income of the Village is said to be 160 rupees. The Village is open to great improvement. Dry lands are very little in this Village.

A. Chattram
