

Kalattur

Register No 452
Sheet No 494

1 This is one of the Damarasman in the peninsula of Kammasperum. It was granted by the Zamindar in 1011 to the person of 13 for subsistence. It is a hereditary grant. It is in uninterrupted possession of its holders since the date of the grant. The Mahayanams produced a Patta on Copper plate while it is said in the account of 1815 (Cajen account) that the Patta of the Village is on plain paper leaf. Hence the genuineness of the document is much doubted. However, this Damarasman is supported by the accounts of 1812. No Talkner about the area on about the town davis on the part of Rang's Talker. Hence the area of 648 Acres is confirmed here. The excess of 175 Acres is the land situated within the proper limits of the Village. But as they being invariable lands, they were not brought to account up to this day. This Village consists of 65 equal Tulkis. They are enjoyed as shown in the margin. - The lands have been divided four years ago permanently & the lands are not subject to periodical changes. - This Village was granted originally to the several Bramin families. Some of the persons of 16 are descendants of the Original Grantee. - 8 others are those of the 16 parents of the Original Grantee & aliees. - Pongu is paid on the number of Tulkis equally. -

(The new one)
