

Sheet 837

1. This is one of the villages in the zemindary of Ramnagar - This was granted for the support of "Periya Shethram" in Mudakongdem -
There is a permanent grant of 10 Pottas - The Shethram has other villages in the zemindary of Ramnagar & two in the zemindary of Peravangal - making a total of
2. 9 villages yielding considerable sum of Revenue. These villages are entered in the name of the temple. The Shethram is ~~now~~ in a very unsatisfactory state
as will be seen from the accompanying correspondence - As the numerous Regulators of Periya Shethram villages ~~now~~ were ready after 1842 to enter
into the Peravangal zemindary, I made an enquiry regarding the state of the Institution - The Villagers of Mudakongdem in which the Shethram
is situated say that, after 1842, 20 men, including 14 ~~Shethram~~ ^{Shethram} servants, were fed daily in the Shethram, but that shortly was discontinued from 1843
1846 - from want of funds, but the Shethram building ~~is~~ is in a ruined state & that since July 1847, 20 men are fed daily from the funds of the Shethram
in ~~the~~ a Shethram in the Village of Topur, & that 12000 Rupees are in deposit in the zemindar's Treasury from the funds of the Shethram -
From the Report of the Villagers it appears that Mudakongdem Periya Shethram is on a road No 22 leading to Rameswaram, & visited by travellers to
large number, & that the Topur Shethram is not ~~so~~ in such an important road as Mudakongdem Shethram - My request to repair the building of
Periya Shethram & feed men there, being situated on an important road - The Rangaswami reported that first that the Shethram is ~~in~~ in a
ruined state & that he is unable to give any satisfactory explanation regarding the

Aspen acct of Fr
124.
