

Madapason Village Kilakota No in Banumonta (Kudi Taluq) of Rannam Gernary Estate of Madras District

Kilakotai.

I This is one of the Villages in the Gernary of Rannam Gernary. This was granted for the support of Chokanada Pandaram Matham & Pandaram in 1711 in Pottiyendel in Banumonta (Kudi Taluq). This is a permanent grant. The Matham & the Temple are efficiently kept up. Travellers are fed in the Matham. The Village is supported by all the accounts of 1812. No break in enjoyment. No Patta. No Takkur about the area or about the boundaries on the part of the Rannam Taluk. The boundaries mentioned in the remanual statement corresponds to those in the account of 1711. Beneath the area of 114 Acre & 15 fatha is confirmed here.

II. The average income of the Village as per statement of the Trustee is 300 Rupees per annum. This is poor income.

VI The person N^o 2 of 016 pleads that his father sold to the shop master of the person N^o 1 of 016 $\frac{1}{4}$ of the Village entered in the Bill of sale marked A - But the bill of sale produced by the Vendor of the person N^o 1 of 016 is not a genuine one as it is on a stamped paper leaf & as his father, he says, executed a bill of sale on a plain paper leaf. The genuineness of the document is proved by the witnesses who attested it. The person N^o 2 of 016 himself admits the transaction. He could not admit the genuineness of the transaction as it is said herein that his father held only half of the Village & that out of which half, or $\frac{1}{4}$ of the entire was sold & as the person N^o 2 of 016 claims now for the other half Village also - as will be seen from the following facts - There was no necessity for the shop master of the person N^o 1 of 016 to buy the $\frac{1}{4}$ Village upon a bill of sale on a plain paper leaf, for 3000 Rupees, contrary to stamp Act. Thus the ~~person~~ Vendor of the person N^o 1 of 016 says ^{the genuineness of the document} is proved satisfactorily, the $\frac{1}{4}$ Village is registered in the name of the person N^o 1 of 016.

VII - - - The person N^o 2 of 016 pleads that Mmalkaty Narkhen who sold $\frac{6}{16}$ of the Village, & Christina's survey Narkhen & his mother Kavery Ammal who sold $\frac{1}{8}$ of the Village, ~~the~~ making in total half Village had or have any right to or concern in the Village - or in other Villages of Pattan & Naragunay belonging to him; & that Mmalkamal his father adopted ^{at January 1847} his wife gave the half of the Village to his father on the 29th of May 1847 under a written will on the consent of his father adopted Mother Nagammal. He again pleads that as the person N^o 1 of 016 purchased half of the Village from those who have not right herein - the bills of sales executed by Sampay - B - C - D & E should be cancelled & the half Village should be registered in his name - The bills of sales proved to be genuine by the witnesses who attested them - The person N^o 2 of 016 himself admits that the person N^o 3 of 016 is enjoying the Village since the last 5 or 6 years improperly - from his influence, being a relative of the Rang of Ramnad persons. It is proved satisfactorily that Mmalkaty Narkhen who sold $\frac{6}{16}$ of the Village to the person N^o 3 of 016 acquired it from her brother Mmalkamal in A.D. 1844 under a written bill - on a stamped paper leaf & that Kavery Ammal & his younger brother Christina's survey Narkhen acquired $\frac{1}{8}$ of the Village at the same time in the shape of Panigamalgam. The right of the persons who sold half of the Village under Bills of sales marked B - C - D & E to the person N^o 3 of 016 is satisfactorily proved & will be seen from paras 4 & 572 of the Register of Naragunay which is placed with this. Hence the claim of the said person N^o 2 of 016 is rejected & the party is referred to Civil Court - of the $\frac{1}{4}$ of the Village which is in possession of the person N^o 2 of 016, half, or $\frac{1}{8}$ of the entire Village is ~~in~~ in mortgage with the person N^o 3 of 016. The person N^o 3 of 016 admits this -

Valuation

VIII. Wet lands are found upon one large Tank - It is in repair. It is fed by one of the branches of the river of Vairagor - an influential river - The Tank is filled annually - Security of Water is not felt much generally. The Vendor of the person of 016 says that most of the Wet & Dry lands are cultivated annually - & that all the Cows will be full milked - hereafter as the Tank was improved recently - Thus there is not much waste in the Village as the soil is fertile & as the Tank has an influential, supplying channel - Kariyah & Puziah lands are of a superior quality, generally - They are Rayer descriptions. Some of the Wet lands are cultivated occasionally & others - The Village is in flourishing state - like the adjacent Ayen Villages - No garden crops are raised in the Village - The average income of the Village is 385 Rupees - per annum. This is not true - I have no materials to enable me the average Wet assessment of the adjacent Ayen Villages - as the Rang's Messenger reported that he never preserved any detailed accounts, but the Talukdar's abstract accounts of the whole Taluk - The average Dry assessment of the whole Taluk is 11-3 per acre - In consideration of the fertility of soil & the average of the adjacent Ayen Villages - I frame the valuation of the Village as follows -
Wet 130 acres full milked at 50 Rupees an - 6500 -
Wet 25 $\frac{1}{2}$ acres of an inferior quality at 20 Rupees 500 - 4 - 7000 -
Dry 300 acres full milked at 12 Rupees an 22500 -
Dry 115 acres full milked at 6 Rupees 2872 -
Total 31372 -
