Grand Father in A.D. 1849 or 1850 to the person N^o 1-2 & 3 of 1846 for years 1846-1847 the ancestor of the

The papers No 243 of 16 plead that the wife of Mrs. Village was not sold to the ancestors of the persons No 4-54 of 16 - nor it was mortgaged to them. In proof of this they state that the entire Village ^{comprising} is entered in the account of 1826 showing the names of the shareholders in several appellations. Among these are "Poringarance & others" which is preferred by the numerous servants. I found this account to be quite false. It contains the names of the persons dead long ago & the names of the persons - ^{present} present to the shareholders.

The said full vesting lands on the payment of fixed annual rent to the Crown.
The document is therefore of no use - The person N^o 4-5 & 6 of 1861 not only proved the fact of
the said village having been purchased by their ancestors & mortgaged to the person N^o 1-2 & 3
in d^o 1859, by the full vesting of the village & by the village servants - such as Amulak Kurni,
- & village Sanyas & also produced the following documents independent of the Bells of earlier years
- & the person N^o 1-2 & 3 of 1861

Copy of the mortgage bond said to have been executed by the person N^o 1273 of 1816 -
- in 1849. This is in the hand writing of the Grand Father of the person N^o 6548 of 1816 who
- died 10 years ago -

1. An account of 1762 of goods produced of the Village - showing that half of the Village belong to the persons M 243 - & the remaining to the persons M 546 of 16 - The others also - the quantity of produce shared by them equally -

The quantity of produce shown by them appears -
I am aware of Adt \$36 or thereabouts showing that the gross produce of the Village was -
shown by the person No 1-2 & 3 of \$106 & by the persons of the 5 & 6 of \$106 agreeably & that
each of them had half of the Village - His account ^{of the} ~~the~~ ^{being the nature of it} ~~quantity~~ of the person taking of the
person No 1 of \$106 who died some time ago -
Does not show the gross produce of the Village showing the same details as in the A.

person No 1 of 1846 who died sometime of
1 An account of the gross produce of the College showing the various details as in the A.
-1834 entered above. The ^{original} ~~original~~ ^{original} of the person No 1 of 1846 -
that the documents produced by the person

The account of the seizure of the person of N^o 7016 -
- of 834e extent above. The ~~entire~~ ^{adverse} testimony of the person N^o 7016 -
It is proved by the village officers & acting factorially that the documents produced by the person
- of 016 are genuine & their allegations are not unfounded ones - Hence half of the Village is seized
- in the names of the persons N^o 6-5 & 7016 - & the parties are referred to civil court.

Vancouver

- in the names of Valuation
 1 Wet lands depend for one tenth of moderate soil - It is fed by Purple Stream &c. It is in repair
 - The Wet & Dry lands flowered as waste and cultivated - a half cultivated once in 3 or 4 years - Wet lands
 - are not cultivated 2 times - Dry & Wet lands are of a moderate quality generally - Scarcely of water
 - not good much. The surrounding villages are in flourishing state - This village also is in good state
 - $\frac{1}{2}$ of the village is in mortgage and the half under dispute - I have no materials to enter here. The average
 assessment on the neighbouring open lands. The many mules noted at the A well show the average assessment
 - the wet lands appear in the village in which the village under settlement is situated - The average Dry assessment of
 the contiguous open village of Valungolton is at 12 Rs per acre - The average profits of the village
 as per statement of the 1818 are 88 Rs per annum. This is not true - In consideration of the fertility of soil &c
 from the valuation of the village as follows - 40. Being of full cultivation annually at 3 rupees per acre 120 - 138
 - 9. Being of full partly water & fully cultivated at 20 rupees per acre 180 - 138
 - 45. Being of full cultivation annually at 11 Rs per acre 495 - 138
 - 3. Being of full cultivation annually at 3 Rs per acre 9 - 138

Commissioner's remarks,
on Register No. 553 -

The deficiency of land discourse by measurement requires no notice, as there is no proof that it is the result of these lands being encroached by the neighbouring villagers - Further explanation is necessary as regards Chadaskad lands - If they were in Zamindari 50 years ago, their value would have been included in the aquts - In how many more aquts are these Chadaskad lands to be found? Do not inquire in these cases which any light as to the tenure of these lands? The Deputy Collector should give a notice to the Pany's Vakil, that the case will be disposed of on its own merits on a certain day, & that if they have any thing to say, they must do so before that -
