Of the 3 1/2 Villages, half of the Hareby Village is a trading estate and the other Villages are uninhabited and consequently the proceeds of the Villages are insufficient to cover the Pajosa due to the Government which is accumulated in arrears. It would cost about 1000 R^s to restore the Pajosa. The Villages should be granted an equal amount from the proceeds occurring thereby the repairs should be effected. The fact that the Collector is not attaching this within the time allowed in the notice is only attributable to the carelessness of the servants. I wonder at the Collector's not attaching credit to the statement filed by me showing the proceeds of the above Villages. The Collector falling into a misapprehension that the above Villages which even when repaired at any rate would yield a greater income, speaks without hesitation regret to my regret that I appropriate the same. If the Villages which can thus be repaired at any rate be taken into account so shortly the result would be prejudicial to the improvement of the Pajosa and the feelings of the community.
