

Kilavanery - சீனவனேரி

II. This is one of the Villages in the Zamindari of Raminapet. It was granted by the Zamindar in 1811 for the support of the Dargah of 183. The Dargah is situated at Fustab Raminapet. The Grant was made in A.D. 1816 or 1818 years ago. This is a permanent Grant. This is in uninterrupted possession of its holders since the date of the grant. This has a Patta or Copper plate. It is in the name of the Zamindar of A.D. 1815, copy of which was submitted to the Board, that there is "No Grant Register". Hence I doubt the genuineness of this Patta. Generally all the Pattas of this nature are open to suspicion, because it neither contains seal or signature of the grantor. The Village is supported by the accounts in p. 12. From the Patta it appears that the object of the grant is to feed Fakirs & maintain the Dargah. By performing annual ceremonies of the pious dead for the support of whose tomb the grant was made, & also by annual daily & ceremonial under the Mohammedan Law - the object of the grant is not in any way frustrated now but the Zamindar is not feeding properly as it was the intention of the Grantor - He feeds some of the Fakirs & worship the tomb. On the whole the Institution is kept up efficiently. Hence the grant falls under Part III. Class one tax free.

II. The area given in the account of 1821 of the Village corresponds to that mentioned in the statement produced now by the Missionaries. The Missionaries & the French Government agree with the measurements in the account of 1821. Hence the area of 83 Acres is confirmed here.

III. Wet lands depend on a small Tank. The lands are left waste since the last 7 or 8 years from want of water & from the weakness of the Tank - The Tank ~~now~~ requires much repair. The Musgans are unable to create the Tank. They ~~promise~~ say that they will restore it early - Pongab lands also are left waste from want of water. Soil is of a medium texture. The Village is in such a poor state from the negligence of the Musgans. The average net profits of the Musgans as per their own statements are given below for annum. At Pongu on the Village - ~~At the Pongu - in Colun & other Pongu~~
The average value of Good Lands are given in the last of the Register. I frame the valuation as between ~~the~~ ^{the} Pongu - in Colun & other Pongu
