ALD

I This is one of the Dharmasanams in the Zemindary of Ramnadpuram. This was granted by Sundara Pandyan of col 11 to the persons of col 13 & others for subsistence. This is a hereditary grant. There is uninterrupted possession of its holders since the date of the grant. There is a Pottu engraved on a stone in Alagar Kovil in Melur Taluq. The Dharmasanam is supported by all the Accounts in col 12. The Village is omitted from the English Account of AD 1815, copy of which is forwarded to the Board of Revenue. This is a mistake.

This Village consists of no ~~[illegible]~~ Hamlets. The lands are enjoyed as shewn in the margin. They are divided permanently. Poruppu is paid as shewn in the said margin. No talk was made about the area or about the boundaries on the part of the Raja's Vakeel.

The boundaries correspond to those in the Account of F 1244. Hence the area of 201 Acres & 81 Cents is confirmed here.

These lands are situated within the said boundaries - - -

II The persons of col 16 are said to be descendants of the Coparceners of the Orgl Grantee. This is proved by Tradition &c.

The persons whose names are entered of col 15 were not shareholders in the Village. They were some of the principal shareholders in the 92 3/4 Villages forming Perungaranai Pattam - - -

III Wet lands depend upon one Tank of moderate size. It is in partial repair. Watered by Jungle Streams &c.

The Tank is filled annually. Scarcity of Water is felt in some years & there is ~~[illegible]~~ rare.

The Mahajanams except the Wet & Dry lands are [illegible] & that they are not long uncultivated lands. If so I do not know why they should class considerable extent as Waste so as to strike the reviewing officer. They are unable to afford satisfactory explanation for the - -

IV— Wet lands are not of Mixed & times. Wet & Dry soil is of a medium character—generally the Village is in good state. The average income of the Village as per statement of the Mahazanams is 75 Rupees per annum. This is not true. I have no materials to enter here the average wet assessment of the adjacent Ayan Villages. The average ~~wet~~ Dry assessment of the adjacent Ayan Village comes to 12 As per acre. In consideration of the fertility of soil &c. I propose the valuation of the Village as follows—

Wet 36 Acres Cultivated at 4 Rupees per acre — 144 — —
Wet 16 Acres Mattakoddu at 2 Rupees per acre 32 — —
Total 176-0-0
Dry 80 Acres Cultivated at 12 As per acre — 60 — —
Dry 59 1/2 Acres Waste &c at 4 As per acre 14-14 —
Total 74-14 — 250-14-0
