1 This is one of the Villages situated within the limits of the peshwasing of Ramdasapuram. Half of this Village was granted for the support of the Gauding of Sunda Gopaula. The other half for the maintenance of the Bramins at Darnasaram in 1768 or 115 years ago. The latter Village Raghunath Sahay, one of the ancestors of the present Zamindar - Potter went on a tour in the field. The characters are undelible. The Madagaram have a copy of it which corroborates the above facts. The ~~half~~ ^{other} Darnasaram portion of half Village is in uninterrupted possession of the Zamindars since the date of the grant. The full portion of half Village is under attachment of the Zamindar since 1768. No portion of the village has been sold into decay. The other half has been turned into off anundia. For 80 years ago by the Priest of Sunda Gopaula. No Parauty is made since the lands are under attachment. Since I recommended the resumption of the full portion of half Village. I thought the Zamindar must pay to Govt. the proceeds of the full portion since it is placed under his attachment. This is tantamount to resumption. For I am unable to find out what sum the full portion of half Village yielded since it was resumed by the Zamindar.

The Trustees of the Chatham qualling, with each other did neither conduct
nor repair the Chatham. Consequently the Zamindar, took the village under his own
charge & proceeds through in deposit, in order to be built the Chatham & repair the tanks. In the last year
the tanks was repaired: accordingly of the Chatham remains to be built. It is suggested to collect
sufficient fund in the above manner, and improve the Chatham. The Deputy Collector
without ascertaining my views, recommends the presumption of the village to the misfortune of
the people.
