(time given page) The father of the above purchased the house entered opposite to his name
- for \$116.60 in Oct 1859 - from one of the storekeepers in the Agency at Bell's Gap
and lived as before. Francis Lewis Bonaparte engaged to provide.

4 The Person No 9 is one of the descendants of the father of the Original Grantee.

1 The ¹⁸⁴⁷⁻⁴⁸ N^o 10 purchased the lands entered opposite this name and 1838-1834-1835-1846-

1856 Jan. 1875-57 from the shouloider in the village they were found on 700000
 Forks hills of californian on Mount Sargan p. 42 are on plain Ladjans - Trunochiois
 proved to be Bonaparte - Inauguration proved.

The first 41-12 are the descendants of the Copertons of the Original Grantees -

the Colored brother of the person N^o 14 who is the younger brother of the person N^o 13 & father of the person N^o 15 purchased the land entered opposite to their names in A.D. 1837 for 238.75 from one of the slaveholders in the regular on 3 occasions - Better than any other plain paper transactions provided the above said enjoyment proved.

Transacted proved to be Bonafide Enjoyment proved.
 1) Decr. No 6821 = New Jatter pantsland Helands in LD 1872 & 1877-1878 & 1880 for Refers 991-73 from ^{HK}~~the~~ ^{particular} ~~of the~~ =
 shareholders in the Agraroutg occasions. Bills of exchange ^{HK} Two Bills of exchange are one stamp paper & one two are one
 plain paper. Transactions proved to be Bonafide Enjoyment proved -
 at the end of the Department of the Original Granted.

1. These Nos 18 & 19 are the descendants of the fortunes of the Original Grantee.

1 The first 18 & 19 are the actual
1 The first 20 is a copy from in person N^o 13-14 MS of coll -

1 The fee Rs 4 is enjoying also some of the lands as a reward for purchase & by an exchange of some of his lands in the Damasaram Village of Tattengudi. All these are included in the land extent of 1000 to his name at the head of the Register - the purchased & by grant of 1848 - on the occasions some land is now. But as no title document is made - these defects are left unnoticed -

Register No. 36
Sheets No. 40

Wet lands depend upon a large Tank. It is fed by one of the channels of the Tank in the Byem Village of Kaleri - 61 Aers are full water annually = 30 Aers of Wet are of 12 years waste as stated by the Mithajamans - They may be brought under plough when the Tank is improved - These lands are not full water 9 times - The soil is of a medicinal character of saline nature - Scarcity of water is felt occasionally - The Tank is not in repair now as it cracked last year. The Mithajamans will repair the Tank now - Punjab lands also are of the same description 100 Aers are full water annually - 35 occasionally. ~~Land~~ ^{Land} ~~of 10 years waste~~ ^{of 10 years waste} - No Tank is raised in this Village - The average net profits of the Village as per statement of the Mithajamans are 26 Papes. This is quite false as it will be seen now the average sales of Goul as well as Zemindary Courts. In this part of the country inferior ~~and~~ wet lands produce at a Taluk per Taluk of seed land - At the lowest rate of price of ~~produce~~ 50 Taluk of lands annually full water must produce 208 Taluk of grain - The value of the comes to 116 Papes at the lowest rate of price of 2 Papes per Taluk of grain - Again 25 Taluk of seed land that are full water occasionally may produce at 25 Papes a year - Again 135 Aers of Dry ~~may~~ produce at 6 As per Acre this comes to 35 Papes. Thus the ~~gross~~ ^{gross} annual income comes to 6176 Papes - Independent of this the Mithajamans collect at 6 As per Acre Taluk of full water land in ready money as "Melawary" or Wet land - This Melawary may amount to 25 Papes - This is very liberal & low & fair valuation - The Mithajamans are guilty of serious falseness - In consideration of the above circumstances I frame the valuation as follows -

1. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
2. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
3. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
4. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
5. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
6. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
7. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
8. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
9. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0
10. 11 Taluk of 60 Aers at 3 Papes per Acre - 183 - 0 - 0

Note. I calculated that
50 Pafus worth seed
alone will require
to sow the land
of the

Wet (fuller) 61 skins at 3 M per An - 183 - 60
 a (C. Carlo) 30 An at 2 0 0 0 60

 243 - 0 - 0
 Dry (fuller) 135 skins at 3/4 0 0 0 98 72
 a (C. Carlo) 67 An at 2 0 0 0 8 - 6

 107 - 2 - 0

 350 - 2 - 0

Again I have reduced the ^{above} valuation to ^{about} 350 Repees - giving allowance to Tank repairs & following
