Average rates of Government Salage per acre
 Maximum Minimum
 Dry 399 - 17
 Wet 10133 - 59

Average rates of Government Salage per acre
 Dry 156
 Wet 461

Details of average income of the last 15 years of the zemindar on wet land
 in Kudu Kallatur Talag of Rannad Estate

From 1256	Cultivated area in acres	Gross amt. in turn	Of which zemindar share at 20 percent	Average price of grain in 15 years	Value of the produce in Rs. & P.	Rates per acre
1270						
1273	44875	170270	68108	298	176655	373

Dry rates prevailing in zemindar Talag of Kudu Kallatur
 Maximum Minimum
 0.153 - 0.25

The land depends upon one large tank. It is fed by one of the branches of Rannad River. The person who has been 70 years as waste in the tank & able before me when I questioned him about it that the work is of 2 years & it is cultivated as well as by exchange once in 2 or 3 years. Soil is quality. Some of the land is cultivated with dry crops also.

as to prove that half of the land is sown as waste one under cultivation & the rest are cultivated occasionally. The average profit of the village as per statement of the person of 16. are 11.70 per acre of that if the nominal charges & the profit are 970 per acre. This is quite false & very low. 3/4 of the village has been mortgaged for 5000 Rs. - 20 years ago. I frame the valuation of land as follows after interviewing the usual details.

Val. including cultivation value 117 Annual 2 1/2 Rs. per acre. 2928
 Rannad
 17863

- 9 Rannad Grand (9)
Nayakam { 25 of the grain brother of the person of 1863
