I do not yield either above proof to be
 genuine by a witness he cannot see without
 the person's ^{face} before him. I cannot say that
 the documents are forged ones but there are
 doubts to me whether they are forged or genuine.

1. No doubt the village is in possession of the 16 miles the last 40 is 50 miles but
 2. The night on that of the persons who is reported
 3. I have sold the lands to them is not joined
 4. On the whole as there are no more to say we will

 The Village came forward to present a
 map of the area which they had
 prepared for the purpose of the
 map.

A close-up photograph of a piece of aged, yellowed paper. The paper has a mottled texture with various shades of tan and brown. Faint, cursive handwriting is visible in the upper left portion, but it is mostly illegible due to fading and the condition of the paper. A small, dark, irregular stain or mark is present on the right side of the image.

What lands depend upon a Fall. It is fed by Long's Stream to the Mahaganamus Channel
28 Several waste. They say that they are all that had run off Long waste - But it is a misapprehension
generally - All lands are cultivated some to convenient occasionally - There is much easy & rich
waste that is the Mahaganamus Plains some of the fullness lands as waste not to see. But
our verbal statement - The Mahaganamus again state that ~~all~~ the waste lands will be brought
under cultivation early & that they ~~were~~ ^{are} left waste ~~because~~ from the negligence of Indians
Lands of War is felt in some years - Average profits of the Village are 112-10. Of the 10 of the
papers 527 - & marginal charges of 100 less 10 making a total of 627 - one deduction for
it profits are 403 - This is quite false - The average of 10 as well as of secondary to pay a
the margin - The statement made & given in the margin will show every detail -
will enable the revising authorities to judge the fairness of ~~the~~ my valuation. After all
much ~~detention~~ regarding the fertility of the ground the waste can be about 1000
