 On the 17th of Aug 1882
 Jyoti Lalai, the son of
 The Sub-fund of Alchiraman on a receipt paper on the 28th of April 1882: authorizing
 to take possession of all their property, personal & real, perform the marriages of their male
 female children, support their wives & children, mortgage or sell their property when on
 the permission of their wives & children & make over the property to their sons who in
 first majority. This instrument is on a stamp paper & it is attested by the
 Mr. G. Long, B.A. It is proved satisfactorily by a great body of people that the
 N^o 4 is a Nickah of Ismail Navale, the elder brother, that she married Ismail
 some 10 years ago after the demise of her first husband, that she used to live with Ismail
 since the date of her marriage, that she has no issue by the said husband, that she has
 the son Ismail; that the persons N^o 1-2-3 of 1886 are the sons of Ismail Navale
 & that this is an undivided family - The Guardian, Mr. Mohammed Ali Lalai says that Ismail
 Navale, Elder Brother above alluded to ~~is dead~~ ^{is alive} told him a sum of 200 rupees ~~to the~~
 Woman N^o 4 if she be unwilling to live with the other members of the family & that to support
 her if she is willing to live with the members of the family - A gentleman, the guardian, pleads that the
 Woman N^o 4 purchased some of the jewels in the house & that therefore he never paid to her the
 sum of 200 rupees. The Woman N^o 4 of 1886 represents that her husband told to the Guardian ^{that}
 to give a sum of 200 rupees in ready money & restore to ~~her~~ ^{the} Elder Brother gratuitously the land
 executed to him (husband of the Woman N^o 4 of 1886) borrowing a sum of 300 rupees from him - that
 husband also told her to remain with the other members of the family receiving the said sum, that
 never performed any portion of the property, that the Guardian drove her out about 5 months ago
 subjecting her to much annoyance, that ~~she~~ ^{she} she will live separately in her husband's house
 & that she has right to half of the property of the family of her husband - The Woman N^o 4 of 1886
 proved to be a lawful wife of Ismail Navale, above alluded to. But as she is destitute of
 children by the said Ismail Navale & as this is an undivided family, I don't consider that she has
 right for a share but for maintenance money - The boys N^o 1-2-3 of 1886 who are her husbands
 Brothers persons are lawfully owning the property - The two brothers who have been transferred & transferred
 joint right in the property to the persons N^o 1-2-3 of 1886 - However as the Woman N^o 4 is the wife of
 Ismail Navale and as he has shown her to maintenance fee, I have entered to her name also of
 The Guardian pleads that the money the Woman N^o 4 of 1886 is not to be registered - This is in accordance
 opinion. Again it is proved by the power of attorney executed to Mohammed Ali Lalai that the
 is a lawful wife of Ismail Navale, because the brother of Ismail Navale has only one wife - that
 Navale has no other wife than the Woman N^o 4 of 1886. ~~And~~ because it is out in the power of
 above alluded to that the Guardian is to support their ~~and~~ ^{and} wives, children - The Guardian himself
 - The paper given before me that on the one of the departure of the Ismail Navale brother as the Woman N^o 4 of
 then & kept herself & that her husband also is ~~undivided~~ ^{undivided} added to the power of attorney - There are
 to register the name of the Woman N^o 4 of 1886 - ~~three more~~

against the people of the ... case, and that these Navatians are not allowed by their religious rules to keep a ...
 with them in a ... that as the woman of 14 of 16 lived with her husband in one of the same house at the subjection of them ...
 - Woman of 14 of 16 is a lawful wife of the Ismael Navatians above alluded to - One of the ... of Mohammed gave this ... before me
 that the woman of 14 is a lawful wife of the father - I have ... of the person of 1-22-3 of 16-2 that he is the person who got the ceremony performed
 under Mohammedan Law

Valuation -

Wet lands depend upon one fault of moderate size - It is in repair - It is fed by a ... stream known by the name of Paralyper - This is an influential ...
 or supplying channel - Wet lands are full water annually in full - These lands are not full watered at times in any year - Soil is not of a very superior quality -
 generally at the same time it is not of a very superior quality - The Guardian says that 4 1/2 ... are planted as Dry Waste are Matted - Dry lands are of
 a superior quality generally - The soil is good Sugar or cotton soil - But it is true that some lands are left waste or full watered as "Matted"
 - No vestige of water is not much felt - I have no materials to ... here the average rate of 1/2 ... of the adjacent ...
 settled annually on a ... system - The average Dry rate of the adjacent Villages of Monahan are 12 ... per acre - This is a ... Village of
 Monahan is contiguous to the Dammam ... Settlement - The Dry soil is of the same nature as that of the neighbouring Villages -
 The average income of the Village as per statement of the Guardian is Rs 36 per annum - This is not true - After weighing the fertility of soil
 I frame the valuation of the Village as follows with the aid of the Guardian

Wet 8 3/4 ... at 3 ... per acre = 26 4-	}
Dry 90 ... at 9 ... per acre = 810 10-	
Cultivated area	
Dry Matted ... at 6 ... = 15-12-	}
per acre	
Total 92-10-	

I have charged 90 ... of Dry that are full watered annually as admitted
 by the Guardian at 9 ... per acre or at the rate prevailing in the
 contiguous Village - The area of 1/2 ... of Dry that are full watered as
 Matted or exchange with the remaining lands at 6 ... per acre
 in consideration of the average estimated income of the soil -
 I have charged it at 30 ... per acre as it is not of a superior quality
