Both facts in Hunter's paper. Transaction proved the Boy's side enjoyment proved.

Both fields are planted to grain & the transduction proved that the fields are irrigated. The people say that there is a tank to irrigate the wet lands which also fallow with the dry crops & that therefore no Pambolles are in the wet & dry lands are cultivated annually in full. No waste lands in the village. Wet lands are not fallow in 2 years. Soil is of a medium generally. The source of irrigation upon which the wet lands depend are not substantial. The average profits of the village as per statement of all aborigines are 126 of the last 27-11-6 & all annual charges of paper melting & total of 40-11-2 are deducted, the net profits are 86. The average rates of food as well as perquisites & taxes are given.
