22 & 32, 33 & 34 were brothers - But 22 & 34
having been given in adoption to another
family, has never enjoyed any share
in the Estate - 22 & 34 is dead & the
agent of his heirs objects to the exclusion
of 23 & asserts he enjoyed a share -
But his statement is contradicted not
only by the General evidence of
the Villagers but by the evidence of
the very witnesses examined on
his side - Note from lawyer

(Continued from p. 100) The buyers of the persons N^o 8-9-10-11-12-13-14 all purchased lands at two opposite other names v. d. d. 1780-1779
- for 576-2-1779 produced 3 bills which are drawn up on plain paper. But there are no witnesses naturally to prove the genuineness
- same - The Green Brother of the persons N^o 14-15-16-17-18 ^{who is} the father of the persons N^o 17 purchased the lands in d. d. 1857 for 1065-1779 from
- one Ramabho wasari, the father of the person N^o 12-13-14 - But it is on a plain paper
The person N^o 12 pleads that Ramabho wasari his father never sold the lands to the persons N^o 14-15-16-17-18 & as the signature appears
to the bill of sale does not seem like of his father who died four years ago. It is proved that the transaction did take place & that the claimant
N^o 12 admitted before the Dehazars soon after he came to Ramad for settlement that the document is genuine & that the transaction is bona fide
The lands are in possession of the persons N^o 14-15-16-17-18 - That of the lands of the claimant are in mortgage with the Defendants -
In the bill of sale it is said that the Pongos was sold for 1065 & that the seller will renew a bill of sale on a stamped paper within
3 months & that if he fails to do that the bill of sale which is on a plain paper should be placed on the footing of a genuine bill of sale
Hence the order is affirmed -
