

1 The farmers ~~are~~ not the holders of the Chicago Bond they are principle shareholders of the 92% Chicago & Panning & Co. Vulture.

Falsification

1 Wet lands depend upon one large Tank - It is in repair -

It is fed by one of the branch channels of Parolayer, an influential stream.

The South is filled annually in ordinary seasons. The waste ~~fill~~ ^{land}

-are of long ~~and~~ uncultivated lands. But they are full of cultivation - & of

in 36 years & the lady - to the person who purchased lands recently

in the Village are quiet men, they will bring war to lands at once under
the Stars and Stripes - Some of the lands are salt water

plough - they say others committed themselves - some of the times on a plough -

of course the lower fine cultivated & the lower will be 5000 years or
10000 years old. But is of a superior quality generally - & I have no

As the value is raised - Fort is of a superior quality -
 presents the average assessment of the adjacent lands.

- that are afflicted on sharing systems - The average English ruling the continents

your village & Ruwan & Vagabon are at 1200 ft & 6000 ft per acre -

The Village is flourishing & there is as far as the lands are cultivated -

The average income of the College is £6000 per an. for student & other
Mahajanams. This is quite false. The lands are fertile - all of them

and full water annually. Scarcity of water is not much felt. There is much

room for improvement - by bringing waste lands. With reference to the

of fertility & soil &c, & from the valuation of the Village of J. House - with the

and of the important documents in the bridge.
