

Panjavyal ३०३९२५५

• About the origin of the Village, see the Register of Rangani para oul -

What we depend upon one small Lenth - 12 skins are sufficient occasionally - Lenses are not of a superior quality.

Which is depend upon one small Lumb-12 acres are fallowings occasionally - Lums are not of a superior quality.
The average net profits of the Village are 99 £ a year per Settlement of 1856. This being fair, I confirm the same as the value of the Village
as of 7th of the Register - The area of the Village corresponds to that given in the account of 1811 & 1826. I shall now about to measure. Hence the
area of 58 acres is confirmed here -
