

Some of the land may be left unsettled annually but not to such an extent as reported by the Mahoyan and because the soil is of a fine quality
No Venture is raised - On the whole the Village is in flourishing state - Plenty of water is felt occasionally - Dry lands are fertile -
The average profits of Gold as well as of our daily labor in which the Darnocran is situated are given in the preceding table -
Average profits of the Village are \$2500 - as per statement of the Mahoyanans - Of this of the last of May 27 11 is deducted the net profits are \$2250
There is very low & unfair - The statement is entered in the table at the preceding note it will illustrate every detail - After entering into much detail
about the valuation of the things, I frame the valuation as follows - I offer this valuation on paper with a view to show the fairness
or unfairness of my valuation at a glance - instead of writing lengthy remarks & confuse the reviewing officer -
