(Continued from page 1) Again they say that as they were not aware of the fact of the Patta of the Village having been registered in the Court in 1809 - when they prepared & produced the accounts of 1244 & 1246 - & that they learnt the circumstances a few years ago & ~~then~~ applied for an authentic copy registered in the Court & ~~then~~ acquired it 3 years ago. Again in proof of 2597 1/2 acres being situated within the limits of the Village the Mahajanams find use the measurement account of 1787 - from the Collectors Office - according to the measurement account which is effected by the zemindar Dewan Muthu Chappa Pillai - According to this account the area of Village walls is 2875 ams & 20 pnts - whereas the area according to the account now produced by the Mahajanams is 2597 ams & 50 pnts the difference is 277 ams & 70 pnts. They say that they have only 2597 ams & 50 pnts within the limits of the Village & 2875 ams & 20 pnts as entered in the measurement account of 1787 - Again from an old map in the midst of the Dammamam lands the Mahajanams find the limits of the Village.

1 One Mervithy Subba claims to 37 years ago of a thirty years from one Desamony
Iyengar, Ponnayya Seshayangor, N^o 79 of 016 on the ground that Narasimha Sasho his brother
younger brother mortgaged one thirty years ago to Desamony Iyengar for how much & for
how many years & does not know & the rest was mortgaged at the same time to the person
of 016. During the course of his carrying the claimant admitted the genuineness of the
claimant's statement that in 1822 & 1822 he said Narasimha Sasho
and 3/4 of the lands to the father of the person of 79 of 016 for 19 years -

Having requested his claims in reference to the remaining 1/3 part of the Village, it is proved that the Plaintiff's ancestors had only 3/4 of the Village & that not 3/4 but 1/2 part of the Village. That only 2/3 of the Village were sold to the father of the person N 73 of 1816, which is the Plaintiff now relinquished his claims as stated above & the remaining one 1/3 part was sold in 1822 to one Hogeny Gengon who died & was succeeded by Parasumha, father & son of the Plaintiff & that he said Hogeny Gengon was the son of Parasumha & that the Plaintiff's younger brother Sotengon sold the Village in 1850 & 1855 to the father of the person N 43 - & to the Mother of the person N 56 of 1816 - Both of whom proved the genuineness of the documents. - Hence the Plaintiff is rejected & the party is referred to civil court.

1. One Christammal claims to 5/32 part of a Village from the person N 52 of 1816 on the ground that the Plaintiff's father had sold it about 10 years ago her husband being mad person & she being a female ignorant of the details of the world. As such the Plaintiff's support of the claim of the Plaintiff Christammal is rejected & the Village is registered in the name of her husband Hogeny Gengon the person N 77 of 1816 - & referred the defendant to civil court. The said Christammal again claims to 1/16 of a Village from the person N 54 of 1816 on the ground that it is the property of one Rangya Manikya Gengon her husband's cousin & that the person N 54 is enjoying the lands as a tenant son of the said Rangya Manikya Gengon though he has no right to them. It is proved by the Plaintiff's father that the person N 54 is the son of younger brother of the said Rangya Manikya Gengon & that the person N 54 performed the funeral rites of both the said Rangya Manikya Gengon & his widow & enjoying the lands since the last 20 years acquiring them from the deceased as bequest. The husband of the Plaintiff is a distant divided cousin of the said Rangya Manikya Gengon - As the person N 54 acquired lands legally from the former rightful owner of the same, the claim of Christammal is rejected & she is referred to civil court.

Valuation

1. The Wet lands in the Village depend upon two Tanks - of large size - of the one in repair & another is in disrepair. The Tanks are fed by Temple Streams &c. The Tank is filled annually - The Plaintiff has no much anxiety to wet cultivation as Dry lands are very valuable & extensive. The Plaintiff says that out of Wet lands of 250 Acres -

Lands cultivated annually - 61 Acres	
30 years waste & left to be cultivated - 118 Acres	
20 years waste & left to be cultivated in the bed of the Tank - 70 Acres	
which is left for fallow - 250 Acres	

Again they say that out of 2299 Acres of 2299 half of the lands are cultivated annually & the rest is left to be cultivated once in 2 or 3 years & so on. They attribute the wet waste to want of repairs for the Tank, which they owe to their inability. The Plaintiff's are not poor - they left one of the Tanks in disrepair as they have much Dry lands & are not anxious to repair the Tank, which they owe to their inability. The Plaintiff's are not poor - they left one of the Tanks in disrepair as they have much Dry lands & are not anxious to repair the Tank, which they owe to their inability. The Plaintiff's are not poor - they left one of the Tanks in disrepair as they have much Dry lands & are not anxious to repair the Tank, which they owe to their inability.
