Padiandendal

This is one of the Villages in the Zemindari of Rameswaram. The holders of this Village & the Rango Taluk held that this & two other Villages named Andetengendal & Pandamangalam were granted to the holders of the latter about two centuries ago for the service of plying ~~boats~~ ^{small boats} or jenuis loaded with pilgrims going to & returning from Rameswaram, a holy place, gratuitously, on the Pamban Channel or river. This is supported by the tradition. The holders of these Villages are doing their duty. Generally, pilgrims are carried from "Toni Torai" to Pamban & vice versa twice a week, but when the wind is strong, only once in a week. The holders of these Villages are furnished with one large boat when the old one becomes unserviceable or when the boat in use requires repair. The cost is borne by the Zemindar. This ~~is~~ ^{is the Zemindar's} practice is prevailing from time immemorial. As the Zemindar is not bound to undertake the ~~cost~~ ^{charge} of buying a new boat & of repairing the old one occasionally, I questioned the "Tunkars" ^{or boatmen} what they will do if the Zemindar refuses to undertake the said charges. They said ultimately after long silence, that they will undertake the charge if the Zemindar unfortunately refuses to undertake the same in violation of the long existing practice. They gave also a Receipt to this effect which I place with this for the perusal of the Reviewing Officers. The holders of these Villages have no Potta for these Villages. In the Tamil Account of 1721, these Villages are ~~not~~ ^{not} styled as "Toni Torai" or "Toni Torai Villages". In the Tamil Account of 1722, the same is repeated. In both of these Accounts, these Villages are added to those of the Chetturam at ~~Chetturam~~ ^{Kabani} - Toni Torai in the Village of Mondapam - as shown below. Talukwar - Toni Torai Chetturam Villages.

The entry in some of this man's letters 774 is 775 as "Chattam" grant. He is an error. That these three have been held on his descent in 1818 & removed from the date of the grant. The village is therefore confirmed in present form as recommended. RMH

II. The Shutterman has several other villages besides the above - In the English Account of AD 1815, copy of which is at Board of Revenue, the villages of "Torai Tonikarais" are entered in the endowments made to the Shutterman of "Torai Torai" - There is a mistake - (perhaps a clerical error) of conveying the Pilgrims from Torai Torai to Pambem being having connection with the Torai Torai Shutterman, all the villages are mixed & entered under the name of the Shutterman in the English Account of AD 1815 - The Village Tonikarais Villages are in possession of Tonikarais from time immemorial - & the Pilgrims are conveyed from Torai Torai Torai to Pambem, where the Pambem river is at a bend of about 3 miles & vice versa - bonus - The proceeds of these Tonikarais Villages are not appropriated any time to the use of the Shutterman - Even if these Villages were the endowment of the Shutterman, they fall within the scope of Rule III - In one of the English Accounts of 1726 furnished to me by the Collector, Pambem, these Tonikarais Villages are entered under the head of "Pambem Mangem or Pambem Villages for Shutterman" In detail ~~of these~~ they are registered as such - The information is entirely opposite to them under several heads - The annexed is an extract from the Account -

"Name of Village" -	"Under whose charge" -	On what account -	To whom granted -
1. Landanmentel.	"Dong people bearing" "the Travellers from" "Pambem to Ramiswar" -	"To convey the"	"Torai people"
1. Andichi Jendel.		"Travellers"	"Pambem"
1. Pambem Mangem.			

On the whole as it is proved that these Villages belong to the "Tonikarais" & that they are enjoying them on service tenure & that they are punctual in their duties of plying boats ~~have~~ loaded with Pilgrims, gratuitously on Pambem channel - In the alleged Account of 1721 & 1723 - which were furnished to the Collector some forty years ago, these Villages are entered as Torai Tonikarais Villages - Hence I confirm these Villages on the holders ~~being~~ under Rule III of Clause one - In the above entries, there is some mistake - as much as in saying that the travellers conveyed from Pambem to Ramiswar instead of from Torai Torai to Pambem & vice versa - III. The fact was about the area or boundaries on the part of the Range Pambem - The boundaries were inserted in the vernacular statistical comparison to those in the Account of 1724 - Hence the boundaries of Pambem are the 127 acres & 25 cents estimated Pambem are registered here -

IV. This Village consists of 43 equal Vallas - They are enjoyed as shown in the margin of the preceding side - The lands were divided - This is a Pambem Mangem Village & free from all Tax -

V. The average income of this Village as per statement of the holders being 88 Rupees per annum - This is not true - I raise it to 280 Rupees - with reference to the fertility of soil &c -

VI. It appears that the Range Pambem is paying to these "Tonikarais" monthly a sum of Rupees 15 - as Batta - This practice is existing from time immemorial -

Annexed side
24 864 -
VII. It appears there is another ~~small~~ small boat called "Pattai" - & that three of the ferry men are always engaged in plying it. Generally a car, servants, or Pappals or some influential men are conveyed in this boat from Torai Torai to Pambem & vice versa gratuitously - On Pambem river -
Pambem Mangem
24 864 -
The above are ~~the~~ the

சுண்டித்தெய்தல்

Register of the Village of Lidsmündel-

III. ... The average income of the Village is 250 Rupees per annum - as per statement of the Surveyor. It is not true - I raise it to 400 Rupees with reference to the fertility of soil &c.

III. ... The average income of the Village is 25 Rupees per annum
I raise it to 90 Rupees with reference to the fertility of soil &c
