III Wet lands depend upon one Tank of moderate size - It is not in thorough repair - It is fed by small streams - The Meluganams say that there are no long uncultivated lands in the village & that the lands plowed as waste are cultivated as "Mettuked" - This may be true to some extent - The Meluganams have greater advantage than any - As they have right both to Andwarum & Melwarum - But from their ignorance the village is not in such a state as it ought to be - Wet lands are not cultivated & hence the average yield is of a medium character generally - The average income of the village as per statement of the Meluganams is 25 Rupees per annum - This is not true - I have no instance to substantiate the average - The average of the adjacent open lands - The average of the adjacent open lands does not exceed 12 Rs. per acre - Security of water is not much for the wet lands cultivated annually - In consideration of the fertility of soil & the value of the water, I presume the value of the wet lands to be as follows -

Wet 8 Acre cultivated annually at 3 Rs. per acre = 24-0-0
 Wet 6 1/2 Acre waste & 2 1/2 Acre for sale = 6-0-0
 Dry 35 Acre cultivated at 3/4 Rs. per acre = 26-2-6
 31-8-0

- 11 Althiraman 100 - 1 husband
- 12 Perumayyappan 30 - 1 son 1 daughter 1 mother
- 13 Muthaayappan 24 - 1 son 1 daughter 1 mother
- 14 Ramaswami 6 - 1 son 1 daughter 1 mother
- 15 Kuppanayyappan 40 - 1 son 1 wife 2 sons
- 16 Pandari 50 - 1 wife 1 daughter
- 17 Sivachili 60 - 1 wife
- 18 Appasami 20 - 1 wife 1 mother
- 19 Appasami 23 - 1 wife
- 20 Ramakrishna 18 - 1 son 1 brother
- 21 Appakutti 12 - 1 son 1 brother 1 mother

See preceding side -

Wet 8 Acre cultivated annually at 3 Rs. per acre = 24-0-0
 Wet 6 1/2 Acre waste & 2 1/2 Acre for sale = 6-0-0
 Dry 35 Acre cultivated at 3/4 Rs. per acre = 26-2-6
