Register of Devadayam & Dharmasanam Village of Pattamangalam in Aranatangalam Taluq of Ramnad Zemindary Estate, Madura District

Sheet No.

Reg. No. 570

Pattamangalam பட்டமங்கலம்

1 This is one of the Villages in the Zemindary of Ramnadpuram. This was granted by the Zemindars of old. One fourth of the Village is an endowment made to the Temple of Teeranageswara Swamy. One fourth is that made to the Temple of Teeruvachakamudayar & half is the Dharmasanam granted to Venkatesvara Iyen for subsistence. The latter is a hereditary grant & the former two are permanent grants. The bare Patta on a plain Cadjan paper there is a registered one of the mention of the Patta is made in the Cadjan account of A.D. 1815. The Village is omitted from the account forwarded to the Board of Revenue in the same year by some mistake or other. The Temple of Teeru Nageswara Swamy is efficiently kept up while that of Teeruvachakamudayar in Manjayur fell in decay 30 or 40 years ago as per statement of the Mahazanams.

The Zemindar's Vakeel pleaded that the Temple of Teeruvachakamudayar is efficiently kept up. It is proved also by the former - word of ... that the Temple is not efficiently kept up. No worship &c are made. Ultimately the Zemindar's Vakeel pleaded that it is true that the Temple of Teeruvachakamudayar fell into ruin long ago & that the proceeds of the ½ Village belonging to the Temple are appropriated to the Temple of Teerunageswara Swamy. This is not true & even if it were true this is not possible. Hence I recommend the resumption of the ½ Village belonging to Teeruvachakamudayar. II N. ... about the area or about the boundaries on the part of Zemindar's Vakeel. Hence the area of 84 Acres is confirmed here.

The boundaries correspond to those in the account of F 1246. There are recognized boundaries for the Devadayam & Dharmasanam portions. (Vide next sheet)

Valuation of Damasavanam portion of this Village

1 Wet lands depend upon a Tank. It is fed by the Tank of Arjunavilli, one of the Ayan Villages in the Zemindary. The Tank is [illegible] & the supplying channel is an unfrequented one to some extent. The Melvaramdar says that 9½ Acres placed as waste are 5 or 6 years [illegible] cultivated to some extent [illegible] permanently waste lands & that all the lands will be cultivated if the Tank is improved. Wet lands are cultivated to some extent [illegible] The result of my enquiry goes to prove that there is not much waste in the Damasavanam portion. Soil is of a medium [illegible]. Scarcity of water is felt occasionally. Average profit of the Village as per statement of the Melvaramdar [illegible] 43. Of this of the last 10 years 20 [illegible] charges profits of the Village as per statement of the Melvaramdar [illegible] as above the [illegible] 2 [illegible] per [illegible] of years [illegible] The average profit [illegible] Govt assessment Zemindary Palagy [illegible] the valuation as follows.

After entering into minute details [illegible]

[illegible] Rao [illegible]

8th Sheet [illegible]

(Continued from 2nd side) (x) It appears that the said Lokanadin or his ancestors enjoyed the lands but from his influence he mortgaged the half Vritty to Govind Ling. It is proved that Lokanadin has no right to sell the ½ Vritty. If the brother of the Mortgager had returned to this part of the Country & sold the half Vritty to his father, he would have sold the [illegible] also the ½ Vritty that is mortgaged to the person N° 17 & 16 [illegible] — The Mortgager Ramburrasamy never returned to the Village. Thus one Vritty in the Village became an unclaimed property. Gov.t have right over it. Thus I recommend to incorporate the Vritty with Gov.t lands. If they think it is troublesome to hold such a small share in the Darmasanam it may be sold at public auction to an highest bidder. The other shareholders in the Darmasanam have no right to [illegible] the Mortgager [illegible] enjoyed the lands for years. He has collected from the proceeds of the lands very considerable sum. His claim is therefore will not stand bar to the incorporation of the lands with Gov.t property. Thus I recommend to incorporate the one Vritty with Gov.t lands.

Valuation of the Darmasanam portion of half Village.

Wet lands depend upon a Tank. It is fed by one of the Channels of Vaigay[illegible]. The Tank is not in repair as the Rany's people will not subscribe their portion of Maramut charges. Now the Chuttram portion of half Village is in decay from want of proper management. The Darmasanam Mahajanams [illegible] that these lands are left waste from the mismanagement of the Chuttram portion of Village. The practice of the Zemindary is, if the Darmasanam portion are cultivated, & if the wet lands in Chuttram portion are left waste, Melwaram is collected from the Mahajanams for one half of the lands cultivated under the Tank, on the ground that the Tank is the joint property of the Chuttram & Darmasanam. This practice is open to serious objection. From the above cause, there is much land waste in the Village. The Mahajanams say that the lands [illegible] by them are [illegible] "[illegible]". Wet lands are cultivated 2d time to some extent. Soil is of a medium character generally. If the Tank is restored, there will be [illegible] an [illegible] of [illegible] in the Village. Cumbu is raised in one or two [illegible] under rain channels. Average profits of the Village are 133[illegible]. If the [illegible] of the Lord of [illegible] 73 15 is deducted the net profits are 59 [illegible]. This is very low. In consideration of the fertility of soil & I [illegible] the valuation as shown below.

Wet 23 Acres [illegible] per acre 90
" 31 [illegible] 62

[illegible]

The proceeds of the village are quite insufficient to conduct Annadanam. Out of the surplus & proceeds of former Trustees Water Pandal is being kept as stated in para 8. The Chattram is in a good state. It did not fall in ruin. There is no doubt that the charity of Water Pandal is conducted. I think that by saying that the Chattram became ruined the Sub Magistrate of Ramisseram means the discontinuance of Annadanam. There is no other accommodation besides this for the travellers going to Ramisseram & Ramanadapuram to halt in & comfort themselves before they get on Dhony. If the village appertaining to such a chattram be taken into circar it will be the misfortune of the people in common
