Register No. 8

III Passone Love Free.

III Wet lands depend upon 2 small tanks - which fell ~~into~~ out of repair 10 years ago & since which the ~~low~~ lands are left unproductive - Look as if a medium thickness of Picea lands are of the same description 193 acres are of 10 years waste from want of water in the average of crops of the village as per statement of the Surveyor in the Report. The average rates of the District & of the remaining lands are given on the back of the Report. I found the valuation as shown in job 7-

 Min — 11-10

This is the

Settlement not followed 2 times. Wet & Dry lands are of a medium character. I have no materials to enter here the average wet assessment of the adjacent village. The average Dry assessment of the adjacent village does not exceed 12 1/2 per Acre. The average income of the village as proportion of the Mahabharata is 50 per Acre. This is not true at all. In consideration of the fertility of soil & the nature of the village as follows.

Wet 30 Acre followed annually at 3-8 per Acre — 105 —
 Wet 13 1/2 Acre followed annually at 10 per Acre — 138 —
 Dry 120 Acre followed at 12 per Acre — 1440 —
 Dry 120 Acre followed at 12 per Acre — 1440 —
