1 This is one of the Darmasasman in the Temin rang of Rannasapuram. This was granted by Purana Ponaya King of 111 to the year of 1913 for subsistence. This is a hereditary grant. This is in uninterrupted possession of its holders since the date of the grant. This has been engraved on a stone in a place found in Melur Taluq. This Darmasasman is supported by all the accounts of 1812. This Village & other Villages forming Perungaranai Taluk ~~was~~ are omitted from the English account of A.D. 1815. A copy of which is forwarded to the Board of Revenue. This is a mistake. No Taluk known about the Area, or about the boundaries on the part of the Raj's Taluk. The boundaries now inserted in the vernacular register correspond to those in the Account of 1746. Hence the Area of 116.1 Ams is confirmed here. These lands are situated within the said boundaries. The persons against whose names the word share holder is marked down are descendants of the original Grantee, as is proved by the tradition. 2. No names of all the persons who acquired shares ~~in the~~ originally in this Village are entered in any of the public Accounts. Hence instead of entering relationships in 1818, the word ~~shareholder~~ ^{shareholder} is entered.

that the Government has right to them. But they are registered in

J. P. L.

The ancestor of the person N° 51 purchased his lands long ago. No documents
Transaction proved to be binding - Enjoined proved by the Mahajanams -

The person N° 51 claims 20 Acre of Dry & 2 1/2 Acre of Wet from the person N° 1 to 5 - Ramnadaapuram
& from person N° 37-38 & 39 of 16 on the ground that they are his patrimony & admits that
he has no enjoyment of the same since long. It is proved by documents that these & some
other lands were sold to the father of the person N° 1 to 5 & 37-38 & 39 of 16 by Ramnada Puram

alias Ramnagar, in A.D. 1836 & 1835 for Rases 303 25-3- & that the lands are in possession of
- the purchaser ever since & that he is the natural father of the complainant. ~~It is~~
- 3 bills are on file in favour of him & one is on a stamped paper -

Valuation -

- Wet lands depend upon one tank of moderate size. It is in repair. It is fed by a single
stream & the tank is filled annually & security of water is felt occasionally. This is of rare
occurrence. The Mahajanams say that 50 Acre of Wet & 16 Acre of Dry waste are fullwatered with.

Dry crops since long from want of repairs for the tank & that 462 Acre of Dry & 16 Acre of Wet
waste are fullwatered as stated. The Valued of the person N° 40 of 16 & 16 Acre of Dry waste

that 50 Acre of Wet & 16 Acre of Dry waste are not to be deducted from the agent
of the Village as these lands are missing when they measured the Village; while the great body

of the Mahajanams pleaded that the measurement is of a fictitious one & that there are
lands in the Village to the extent brought on the Register & that the 50 Acre of Wet waste
are not to be deducted from the Agent of the Village. The Valued of the person N° 40 & thus.

& the great body of the Mahajanams entered into an agreement to the effect that the former
have no right to the 50 Acre of Wet waste & that entire right of them is confined to the

officers of the person N° 40 & ultimately they destroyed the document &
asked me to ~~cancel~~ return 50 Acre of Wet waste in their Agent's Agent &

and that these lands will be fullwatered when the tank is improved. Thus the request is
complied with. On the whole it appears that 50 Acre of Wet waste are not really ~~unimproved~~

unimproved lands & that they are fullwatered for the present with Dry crops.

The Mahajanams again complain only say that, they intend to improve the tank this year
& fullwater these 50 Acre with Wet crops within a period of 4 years. There is some of

in exaggeration in the matter of the waste of Dry lands. Some of the Dry waste lands
are stated to be & the rest are fullwatered annually. Wet lands are not fullwatered 2 times -
Wet & Dry lands are not of an inferior quality generally. No garden crops are raised -
