II The individual N^o 13 of B purchased land in 1842-1843 for 30¢ with - on the Village known by the name of Mattamiscott

- One bottle of sale of 1842 belonging to the person N^o 2 is in existence & the rest was lost - The person N^o 1 & 16 admits the transaction - Eng of med from N^o 1 & 16

Transaction is bonafide - He sells names of Roman adin who purchased lands previously from the person M^r 7018 -
if 1-15 years or they are washed away

III. Wet lands depend upon a Turk. The persons of 1866 say that the lands in the Village are left waste since the last 15 years as they are washed away by the ~~Red~~ river Nagar, ~~that~~ that once or two acres of Dry are cultivated since the last 6 years. ~~that~~ that the remaining lands are unfit for cultivation & that they are paying Porcup from their own funds. It is true that the lands are lying waste since the last 20 years. But they will be brought under plough gradually as it appears from the statement of the adjacent Villagers. I calculate the value of the Village as follows.

London: 13/11 Price at 1/2 pice per acre 512 - £ 16 16 11/2

Waste $\frac{1}{2}$
