One Pular Tiner pleads that his cousin Mongulamma Shikhar & Periyoga Shikhar were sold half of the Village to Admetram Pillai, father of Muttalige Pillai - who was the adopted father of the person No 2 of 16 & husband & step son of the Widow No 3 of 16 respectively. Regarding this I refer to the existing authorities paras No II to VI (inclusive) of the Regulation of the Government Village of Kelambal - which is placed. The Widow No 4 of 16 claim half of the land situated opposite to the names of the person No 2 of 16 opposite to her name - This regarding this, my remarks in para VII of the said Regulation of Kelambal - which is placed with this.

Valuation

III Wet lands depend upon our tank. It is in repair perfectly. It is fed by a Spring. The tank is filled annually in full. Security of labor is not felt generally. Wet lands are cultivated annually in full. The holders of the Village say the Dry lands are not of an income. Waste & that they are full of water as that the tank. There is not time to do full extent - Mangal & Panjath lands are not of a very superior quality growing. Some of the best land in the Village is cultivated & some occasionally. This is an insignificant Village. The average income of the Village as per statement of 1266 is 16 Rupees per annum. This is not true. I have no materials to make the average. The average of the adjacent Agan & Lands. The average Dry area is at 0-11-3 per acre throughout the Taluq. In consideration of the fertility of soil & of the value of the Village as follows.

Wet 7 1/4 per full water at 50 Rupees an acre 364
Dry 30 per full water at 12 Rupees an acre 228
Dry 20 per water not to 10 Rupees an acre 5
