1. This is one of the Domasians in the name of Ramnagurum. This was granted by the Government in 1611 to the person of 1613 for subsistence. This is a hereditary grant. This is an uninterrupted possession of its holder since the date of the grant. The name of the holder is Ramnagurum. It was lost. The Village is supported by the accounts of 1612. The Village consists of 18 Thithes of an equal balance. They are enjoyed as shown in the margin. The lands have been divided long ago. They are not liable to periodical exchange. Puri is paid on the number of Thithes equally & permanently. The Village is in the Brand Register. It is taken over about the time of about the Commission of the family Ramnagurum. Hence the area of 307 Acres & 7 Cents is ascertained here.

II. The person No 1-2-3-4 & 5 of 1866 purchased land in public auction when they were sold by the late Subordinate Court of Madras in satisfaction of a

(Continued from inside) The person #15 of 1861 who is a descendant of the Original Grantee and the person #11-2-3-4-5-6-7-8-9 10-11-12-
 x #134 of 1861 - 137 The father younger brother of the person #14 of 1861 for the recovery of the entire Village on the ground that it has been
 mortgaged a few years ago to them - All the persons of 1861 came the father younger brother of the person #14 of 1861 and the son of
 his relative named Rampho Tewa above alluded to admitted that the ^{5th} Village was mortgaged to the person #134 of 1861
 - pleaded that they have purchased the land long ago & paid the same before the Moosty Court. But the said Rampho Tewa
 & Mattin Ramalunga Tewa, the father younger brother of the person #15 of 1861 pleaded that the ^{3/4} of the Village on their affidavit to the
 person #15 of 1861 is really under mortgage with them - The Court therefore decided that compensating the said ^{3/4} of 17 1/2 Dollars & compensating
 - the mortgage of ^{1/4} Village on their affidavit to the name of #15 of 1861 - The person #15 of 1861 is absent & it is not known where he is -
 - The Defendants in the suit are endeavoring to get the ^{3/4} Village sold to satisfy the costs of the suit awarded to them -
 - In this state of things the persons #14 & his co-purchasers #16-520 came to the ^{1/4} Village on the ground that it was purchased
 - originally by ^{to Doug} his then ancestors who is the Grand Father of the person #15 of 1861 - & the person #14-16-520 gave the ^{3/4} -
 - Village to Rampho Tewa gratuitously long ago, as he is enjoying it ever since, as he & the father younger brother admitted that the
 - ^{3/4} Village is under mortgage, as the persons #14-16-520 kept them silent - & as the Court awarded the ^{3/4} Village to the person #15,
 - rejected the claim of the persons #14 & others & registered the ^{3/4} Village in the name of the person #15 of 1861 -

Tuberculi

There is one large Tank in the Village - It is fed by a single stream & The Tank is sound in strength - The Tank is fed annually in ordinary seasons -
The Mahajanams say that 18 Acres of Well-irrigated as waste are saline lands & that therefore they are lying waste since the last 10 or 15 years - The Mahajanams say that
53 Acres of Dry are "Mattedukad" - The remaining lands are irrigated annually in ordinary seasons. All lands are not full watered 2 times - Part is of a medium
generally. On ~~some~~ detail there are some superior & inferior lands - The Village is not a very valuable one - The part of the Country require considerable labor
Scarcity of Labor is felt occasionally - I have no materials to enter here the average rates of assessment of the neighboring wet lands - The average Dry rate
of neighboring open Village known by the name Gollingamunda are at 5 ~~per acre~~ per acre - The Mahajanams say that the Dry lands of this Village are not so fertile
as those of the contiguous open Village Miniganiwal - The average profits of the Village as per statement of the Mahajanams are 150 Rupees - This is not a
usual rate with reference to the fertility of soil & I frame the valuation of the Village as follows in consultation with the persons of old -
Well Cultivated area) 65 Acre at 3 Rs per Acre = 195-0-0
" Waste) - 18 Acre at 1 Rs per Acre = 18-0-0
Dry 162 Acres full watered area in 1-9 Rs per Acre = 1458-0-0
Total value of the Village = 1671-0-0
