Register no 100

Reel 116

This is one of the Dammocumans in the Reminancy
- Honours of years ago & it was renewed by the Reminancy of 1811 to the 1813 - This is a letter from the
of its borders since the date of the grant - This has no Patte - It was lost - No Lullama about the area - The Reminancy Vallet
found the boundaries which correspond to those given in the account of Lady 1726 - Hence the area of 36 1/2 Acres is confirmed here.
to the other survey of 1816 purchased the entire Village for Rs 350 two on two occasions viz at 1850 & 1857 from
Transtons proved the Boundary

The latter of the foregoing is a fine
Nannamangen, Meenoddy Pundaram Pillar or Two Betts are on Stem paper -
Engraving proved. The seller purchased them long previously from the descendants of the original painter -
one small Turk - It is fed by single stream & it is a mud and plaster generally -
The work is done in red earth. The average profits of the painting are

III. Wet lands depend upon one small tank - It is fed by surface water - No waste in the drainage security of water is felt occasionally - No crop is raised in the low lands - The average of food as well as of genuine Labeys are given - The range in 48 years of the Lake is deducted the net profits are £1-13- - The averages of food as well as of genuine Labeys are given - I frame the valuation as follows -

on the back of the Register they are unduly high - With reference to the fertility of soil &c.

1 Wet 12 per cent 30 pps are 36
1 Wet 12 per cent 30 pps are 36
1 Wet 12 per cent 30 pps are 36
1 Wet 12 per cent 30 pps are 36
